LA SALLE COLLEGE IN THE CITY OF PHILADELPHIA

BOARD OF MANAGERS

BROTHER EDELWALD JAMES, F.S.C., <i>chairman</i>	Elkins Park
BROTHER ERMINUS STANISLAUS, F.S.C.	Philadelphia
BROTHER DANIEL BERNIAN, F.S.C.	Philadelphia
BROTHER DIDYMUS JOHN, F.S.C.	Philadelphia
BROTHER FELIX FRANCIS, F.S.C.	Philadelphia
BROTHER EDWARD JOHN, F.S.C.	Philadelphia
BROTHER EDWIN ANSELM, F.S.C.	Ammendale, Md.
RT. REV. MSGR. THOMAS F. McNALLY, V.G.	Philadelphia
JOHN McSHAIN	Philadelphia
JOSEPH SCHMITZ	Philadelphia
WILLIAM F. KELLY	Philadelphia

Executive Committee: BROTHER E. JAMES, *chairman*; BROTHER E. STANISLAUS; MSGR. McNALLY; MR. McSHAIN; BROTHER D. JOHN, *secretary*.

Finance Committee: BROTHER E. JAMES, *chairman*; BROTHER E. STANISLAUS; BROTHER F. FRANCIS; MR. WILLIAM F. KELLY; BROTHER D. JOHN, *secretary*.

Committee on Nominations: BROTHER E. JAMES, *chairman*; BROTHER E. STANISLAUS; BROTHER DANIEL BERNIAN; MR. JOSEPH SCHMITZ; BROTHER D. JOHN, *secretary*.

OFFICERS OF THE CORPORATION

BROTHER EDELWALD JAMES, F.S.C.	Chairman of the Board
BROTHER ERMINUS STANISLAUS, F.S.C.	President
BROTHER DANIEL BERNIAN, F.S.C.	Vice-President
BROTHER FELIX FRANCIS, F.S.C.	Treasurer
BROTHER DIDYMUS JOHN, F.S.C.	Secretary

OFFICERS OF ACADEMIC ADMINISTRATION

BROTHER E. STANISLAUS, F.S.C., Ph.D., LL.D.	President
BROTHER DANIEL BERNIAN, F.S.C., Ph.D.	Vice-President Dean of Students
BROTHER D. JOHN, F.S.C., Ph.D.	Dean of the College
BROTHER D. VINCENT, F.S.C., Ph.D.	Dean, Arts and Sciences
BROTHER DAVID CASSIAN, F.S.C., M.A.	Dean, Business Administration
BROTHER GREGORIAN PAUL, F.S.C., Ph.D., LL.D.	Dean, Evening Division
BROTHER F. CHRISTOPHER, F.S.C., Ph.D.	Director of Admissions
BROTHER G. JOSEPH, F.S.C., M.A.	Registrar
BROTHER EDMUND JOSEPH, F.S.C., B.S. IN L.S.	Director of Library

OFFICERS OF BUSINESS ADMINISTRATION

BROTHER F. FRANCIS, F.S.C., B.A.	Treasurer
BROTHER EDWARD JOHN, F.S.C., M.A., D.C.S.	Bursar
JOSEPH SPRISLER, B.A., D.C.S.	Business Manager Comptroller

STUDENT PERSONNEL SERVICES

REVEREND RICHARD MARK HEATH, O.P., Ph.D.	Chaplain
JOHN ROONEY, Ph.D.	Director of Counseling Center
THOMAS MCCARTHY, Ph.D.	Assistant Director of Counseling Center
EDWARD DILLON, M.A.	Reading Consultant
MARY CATTIE, B.A.	Psychometrist
THOMAS HICKEY, B.S.	Director of Alumni Office and Placement
JAMES J. HENRY, M.A., LL.D.	Director of Athletics
THOMAS MCTEAR, M.D.	College Physician
WILLIAM HALL	Director of Dining Hall
RUTH SERCHAK, R.N.	Attending Nurse

ASSOCIATE ADMINISTRATIVE PERSONNEL

BROTHER GAVIN PAUL, F.S.C., Ph.D.	Director of Special Services
DONALD MASSER	Superintendent of Buildings and Grounds
JOHN MCCLOSKEY, B.S.	Assistant to the President
MARGARET KEILY LENNON, B.A.	Assistant Registrar
WILLIAM J. BINKOWSKI, M.A.	Assistant to the Dean
CHARLES PERKINS, M.A.	Assistant to the Dean Evening Division
EDWARD BRONSON, M.A.	Director of News Bureau

FACULTY OF THE COLLEGE

- BROTHER E. ABDON, F.S.C.Professor, German
 B.A., Ped.D., La Salle College
 M.A., University of Pennsylvania
- EDWIN W. ADAMSAssociate Professor, Education
 B.S., Ed.D., Temple University
 M.A., University of Pennsylvania
- BROTHER D. ADELBERT, F.S.C.Instructor, English
 B.A., Catholic University
 Cand. Ph.D., Catholic University

COMMITTEES OF THE ADMINISTRATION AND FACULTY

College Council: Brother E. Stanislaus, *chairman*; Brother Daniel Bernian; Brother D. John; Brother D. Vincent; Brother David Cassian, Brother F. Christopher; Brother Gregorian Paul; Dr. Sprissler; Mrs. Lennon, *secretary*.

Academic Affairs: Brother D. John, *chairman*; Brother David Cassian; Brother D. Vincent; Brother Gregorian Paul; three members elected from the faculty.

Student Personnel Services: Brother Daniel Bernian, *chairman*; Father Mark Heath; Brother D. Augustine; Mr. Rooney; Mr. Henry; Mr. Hickey; Mrs. Serchak.

Library: Brother Edmund Joseph, *chairman*; Brother D. Augustine; Brother D. Thomas; Dr. Guischart; Dr. Holroyd; Dr. Goldner.

Athletics: Brother G. Robert, *chairman*; Father Mark Heath; Mr. Henry; Mr. Courtney; Brother Christopher; Brother Daniel Bernian; Dr. Naughton.

Faculty-Student Relations: Brother D. Augustine, *chairman*; Mr. Carrio; Dr. Ciesla; Brother Daniel Bernian; Dr. Penny; four students elected by the student council.

Admissions: Brother D. John, *chairman*; Brother D. Vincent; Brother David Cassian; Brother Gregorian Paul; Brother F. Christopher.

Student Discipline: Brother Daniel Bernian, *chairman*; Brother Gavin Paul; Mr. Carrio; Mr. Dillon; Brother E. Patrick; Dr. McCarthy; Brother Fortinian Joseph.

Awards: Brother E. Patrick, *chairman*; Brother F. Adrian; Brother F. Joseph; Mr. Fitzgerald.

Budget: Brother E. Stanislaus, *chairman*; Brother D. John; Brother Daniel Bernian; Brother Gavin Paul; Dr. Sprissler.

Academic Standing and Degrees: Brother G. Joseph, *chairman*; Brother D. Thomas; Brother Clementian; Dr. Flubacher; Brother D. John; Brother D. Vincent; Brother D. Cassian.

Scholarship: Brother G. Joseph, *chairman*; Brother F. Christopher; Brother Daniel Bernian; Mr. Halpin.

Recommendations:

- (1) Medical and Dental Schools, Graduate Schools of Science—Brother F. Christopher; Dr. Holroyd; Brother Damian; Brother M. Edward.
- (2) Graduate Schools and Professional Schools of Law—Dr. Flubacher; Dr. Naughton; Mr. Halpin.

HISTORY OF THE COLLEGE

In 1863, eighteen years after the Brothers of the Christian Schools first came to this country, the development of Catholic education in the Archdiocese of Philadelphia reached such a level that the need for an institution of higher learning within the city limits became very pressing. A group of eminent priests and laymen under the leadership of the Most Reverend James Frederick Wood, later to become the Archbishop of Philadelphia, secured from the Legislature of the Commonwealth of Pennsylvania a charter for the incorporation of La Salle College. Under the authority of this charter the Academy, which had been conducted by the Christian Brothers as an adjunct to Saint Michael's Parochial School, became the nucleus of the new college.

Beginning with its inception in 1863 in Saint Michael's Parish, the College outgrew three locations—the Academy site in the parish, the site at Broad and Juniper Streets, until a few years ago the location of the Evening Bulletin Building, and the old Bouvier Mansion at Broad and Stiles Streets. In 1929, the College was transferred from Broad and Stiles to a new location in beautiful Wister Woods located in Belfield Park, part of the Wister Farms. The new buildings were ready for full occupancy in 1930, housing the College, the Secondary Department and Benilde Academy.

The growth of the College continued. The numbers of students enrolling in the College and in the secondary department far exceeded the expectations of the founding Brothers. It became impossible to accommodate the many applicants. Within two decades after removal of the College to Belfield Park, the enrollment increased threefold. It became evident that even the new facilities had already exceeded their capacity. Additional property adjoining the original purchase was acquired and plans were formulated for expansion.

The return of the veterans from World War II placed a heavy demand on the facilities of the College. With the assistance of temporary facilities secured through Federal Housing Agencies, the College accepted a peak enrollment of over twenty-three hundred veterans. In 1946, the College inaugurated an Evening Division in response to many demands from men in Industry and Business. After ten years, the enrollment in the Evening Division has grown

beyond 1500, and the facilities of the College have already been strained beyond normal capacity.

Long an urban institution, serving metropolitan Philadelphia and the surrounding communities, the College was finally forced to yield to the demands of out-of-town students for campus accommodations. Accommodations in the campus residence halls are limited to two hundred and seventy-five. Each year marks further growth and development and the College again has reached a level where it must expand further to meet the increasing demands made upon it.

In 1951, the beautiful Dixon Estate in Elkins Park was purchased to serve as a location for the young men preparing to be Brothers and who are in attendance at the College. This suburban campus will receive within the next two years the secondary department to be transferred from the campus in Belfield Park to Elkins Park. The Elkins Park campus has on it Anselm Hall, the training college for the young student Brothers, named after Brother Anselm, for many years president of the College.

In 1955, because of vast growth and development, the College reorganized its administrative patterns and created several schools to better serve the student body. The traditional liberal arts structure of the College program gave way to separate schools of Arts and Science and Business Administration with sessions being conducted in the Day and Evening.

The latest phase of the College's growth and development is evidenced magnificently in a Student Union, the construction of which will begin in 1957.

LOCATION

La Salle College, located at Twentieth Street and Olney Avenue in the City of Philadelphia, is situated in the suburban atmosphere of Wister Woods. This location affords easy access via public transportation or automobile from the surrounding metropolitan and suburban areas. The Broad Street subway terminates at Olney Avenue, and the College is but a few minutes' walking distance from this terminal. Routes 309 and 422 pass by the College; Route 611 comes within a few blocks of the campus; Route 1 provides easy access from Trenton and the surrounding areas in New Jersey. The College can be reached conveniently by

residents of South Jersey because of the bridge trains which connect with the Broad Street subway. The Pennsylvania Railroad provides convenient transportation to students from the Wilmington and Chester areas.

CAMPUS AND BUILDINGS

College Hall

College Hall forms the north side of the quadrangle. It houses many of the administrative offices and is the hub of the instructional activities of the College. It contains conventional amphitheatre type classrooms, science laboratories and an auditorium.

Faculty Residence

The Faculty Residence, forming the west side of the quadrangle, houses the major portion of the living quarters of the administrative and instructional personnel of the Community of the Brothers of the Christian Schools attached to La Salle College. It also contains the Office of the President of the College; the Board of Managers Meeting Room; the College Chapel; the Information Desk and reception rooms.

College Library

The new College Library was opened in September, 1952 and incorporates the latest principles of library architecture and planning. It will accommodate 150,000 volumes, and it provides study and research facilities for students, faculty and alumni.

This building also houses library staff offices, the faculty lounge, the student lounge, the Collegian office and the Office of Public Information.

McShain Hall

McShain Hall, located on the east side of the quadrangle, contains living quarters for some of the Christian Brothers attached to La Salle College and its eight classrooms are used for instruction in the Evening Program.

Benilde Hall

Benilde Hall is a two story structure located to the east of Leonard Hall. It contains classrooms, faculty offices and the

College medical dispensary. It serves as an auxiliary unit to the main instructional building, College Hall.

Leonard Hall

Leonard Hall is a one story structure located east of the quadrangle between McShain and Benilde Halls housing the College cafeteria, a separate faculty cafeteria, the Campus Store and the students' barber shop. These facilities will be relocated in the new Student Union building to be constructed in 1957.

Field House

The Field House is located on the south side of the quadrangle. It contains a large gymnasium accommodating approximately 1500 spectators with separate dressing and equipment rooms as well as office space for the athletic department. The second and third floors of this building provide additional classroom space.

McCarthy Hall

This is a one story structure located under the west stands of McCarthy Stadium. It serves as headquarters and classroom area for the Department of Military Science and Tactics and also houses the office of the Superintendent of Buildings and Grounds and a band practice room.

Anselm Hall

In 1951, the La Salle campus was extended by the acquisition of fifty-three acres in suburban Elkins Park. This property, at Spring Avenue and Ashbourne Road, a fifteen-minute drive from Twentieth and Olney, provides a residence for approximately one hundred Christian Brothers, both faculty members and students in the College. Anselm Hall's seventy rooms provide not only chapel, refectory, study halls and sleeping accommodations for these Brothers, but also lecture halls where many of the College classes are held.

Residence Halls

There are four residence halls located on the north side of Olney Avenue, west of Twentieth Street. These are St. Albert Hall, St. Bernard Hall, St. Cassian Hall and St. Denis Hall. Each residence hall contains 35 double rooms, suitably furnished for student com-

fort and containing adequate facilities. A large reception lounge is located on the first floor of each building.

Athletic Field

The athletic field is located on the east side of the main campus and it contains two complete baseball diamonds and soccer field. Its area is used also for the College intra-mural sports program as well as for ROTC drill formations.

Boat House

La Salle College crews have the use of the facilities of the Boat House of the La Salle Rowing Association. The Boat House is located on "Boat House Row" on the east bank of the Schuylkill River about five miles from the College campus.

RECOGNITION AND MEMBERSHIP

La Salle College is chartered by the Legislature of the Commonwealth of Pennsylvania and is empowered by that authority to grant academic degrees. It is accredited with the Middle States Association of Colleges and Secondary Schools, the Pennsylvania State Department of Public Instruction, the Regents of the University of the State of New York, the American Medical Association and the Pennsylvania State Board of Law Examiners.

The College is a member of the American Council on Education, the Association of American Colleges, the National Catholic Educational Association, the College and University Council of Pennsylvania, the Association of Liberal Arts Colleges of Pennsylvania for the Advancement of Teaching, the Pennsylvania Catholic Education Association, the Pennsylvania State Education Association, the American Library Association, the National Commission on Accrediting, the American Catholic Historical Society and the Educational Conference of the Brothers of the Christian Schools.

The College is also a charter member of the Foundation for Independent Colleges, Inc., an association of non-tax supported liberal arts colleges in Pennsylvania, whose purpose it is to solicit support from Industry and Business for the liberal arts colleges of the Commonwealth.

FACULTY OF THE COLLEGE

The faculty of La Salle College is composed of Brothers of the Christian Schools and laymen who have devoted their lives to Christian education.

The Brothers, following the traditions of their founder, Saint John Baptist de la Salle, the Patron of all Christian Teachers, are dedicated to the Christian education of young men. Their lives are consecrated to holiness and scholarship, for it is in these ideals that true education must be fostered. Father Lord, S.J., describes well their vocation as teachers: "Without the possible distractions of the priesthood, the Brothers give their undivided energies to the men in their classes. . . . Divided from them only by thin lines of a religious habit and the tremendous but invisible wall of their vows, they can win confidence, solve problems, and offer sympathetic understanding. They are teachers lifted to supernatural heights by their consecration."

The priests and laymen of the faculty are selected because of special qualifications in their fields of endeavor and for their adherence to the principles of Christian education exemplified in the philosophy of Saint John Baptist de la Salle.

OBJECTIVES OF THE COLLEGE

La Salle College is a Catholic college for men, conducted by the Brothers of the Christian Schools, a religious congregation of teachers founded by Saint John Baptist de la Salle. The College, as a Catholic institution of higher learning, accepts as a basic purpose that which is fundamental to the whole system of Catholic education, namely, the development of the supernatural man who, in the words of Pope Pius XI, "thinks, judges, and acts constantly and consistently in accordance with right reason illumined by the supernatural light of the example and teaching of Christ; in other words, to use the current term, the true and finished man of character."

The College strives to accomplish the following for all students:

- 1) to give to the student a higher education based on the principles of Christianity;

- 2) to develop the student intellectually so that he might learn to think critically and reason logically;
- 3) to prepare the student for responsible citizenship by acquainting him with the foundations of American democracy as they have evolved in the processes which created our Western civilization;
- 4) to foster in the student the development of an integrated personality which requires that he be provided with an opportunity to satisfy the intellectual, moral, social, emotional, recreational and vocational needs according to norms proper to a cultured Catholic gentleman;
- 5) to make available to the graduates of Catholic high schools of the area, and in particular, to young men in moderate economic circumstances, an opportunity for a higher education.

To realize these objectives as completely as resources permit, the following standards guide the efforts of the faculty:

- 1) Courses in religion are included in every program of instruction. Formal instruction is supplemented by religious services, student retreats, class prayers, religious organizations, and, in general, by a Christian atmosphere on the campus.
- 2) Courses in philosophy are required in every program of instruction. These help the student to integrate his knowledge, to develop independent and responsible thinking, and to evaluate critically various philosophical systems.
- 3) All students are required to study American history to help them appreciate the reasons for the position which the United States holds in the present world scene. This instruction has for its purpose the orientation of the student in much of the reading, discussion and information which mass media of communication bring to the public today.
- 4) The personnel program offers to the student services and opportunities which complement the instructional program—social and cultural activities, a program of co-curricular activities, intercollegiate and intra-mural athletics, professional services in the field of vocational and religious guidance.
- 5) The College has consistently maintained modest tuition fees and a generous student-aid program to make a higher education available to as many deserving students as possible.

ORGANIZATION OF THE COLLEGE

I UNDERGRADUATE DIVISION

1) THE SCHOOL OF ARTS AND SCIENCES

- a) Liberal arts programs leading to the bachelor of arts degree offering majors in English, Economics, Languages, History, Government and Sociology.
- b) Science programs leading to the bachelor of arts degree offering majors in Biology, Chemistry, Mathematics, Physics and Psychology.

2) THE SCHOOL OF BUSINESS ADMINISTRATION

Programs leading to the bachelor of science degree and offering majors in Accounting, General Business, Finance, Industrial Management, Industrial Relations and Marketing.

3) THE EVENING DIVISION

- a) Programs in Business leading to the bachelor of science degree offering majors in Accounting, Marketing, Finance, Industry and General Business.
- b) Programs in Science leading to a bachelor of science degree offering majors in Chemistry and Electronics.
- c) Programs leading to a Certificate of Proficiency.

II GRADUATE DIVISION

The program in Religious Education, leading to a master of arts degree, is available to members of the Brothers of the Christian Schools.

RELIGIOUS INSTRUCTION

Catholic students are required to follow certain prescribed courses in Religion. This religious instruction is necessarily related to the fundamental purpose of the College and is at the core of its objectives. The curriculum in Religion stresses the essential truths which are basic to our Christian civilization and without which there can be no truly Christian intellectual and cultural formation.

Non-Catholics admitted to the College are required to follow certain courses in Religion which are not, however, related to the program followed by Catholic students. These courses enable the

non-Catholic student to appreciate more fully the religious elements which are essential to a true education.

SUMMER SESSION

A limited number of courses are offered during the summer. Some of these are six weeks courses; others, twelve.

The Freshman class entering in February is required to complete the second semester during the summer. This enables the class to resume work in September within the regular pattern of the college year.

A roster of summer courses to be offered is available around April 1. It may be secured from the Office of the Dean.

Properly qualified applicants from accredited institutions may enroll in these courses.

SCHOLARSHIPS

Scholarships awarded by the College are of two kinds—those offered in competition and those granted to specified Catholic high schools. All scholarships are valued at \$1800, a sum which is applied in payment of tuition for eight terms. Fees and other expenses are not included in the scholarship grants.

Four competitive scholarships, open to Catholic men who are high school seniors or graduates, are offered annually. Application forms for the competitive scholarships may be obtained from the Registrar of the College or from the applicant's high school principal. The completed form must be received by La Salle College not later than February 1. The applicant must arrange to take the tests of the College Entrance Examination Board in Scholastic Aptitude. Arrangements for the tests must be made directly with the College Entrance Examination Board, Princeton, New Jersey. Applicants must request the Board to send results to the Registrar, La Salle College, Philadelphia 41, Pennsylvania. These competitive scholarships are:

- I The Henry T. Coleman Scholarship founded by the late Henry T. Coleman, Esq. in 1903.
- II The William F. Harrity Scholarship founded by the late Honorable William F. Harrity in 1913.

- III The Patrick Curran Scholarship founded in 1914 by Reverend Edward J. Curran, A.M., LL.D., in memory of his father.
- IV The Alumni Memorial Scholarship, founded by the College in 1947 to honor La Salle men who gave their lives in World War II.

Full-tuition scholarships are awarded each year to the following:

Calvert Hall College Baltimore, Maryland	Northeast Catholic High School Philadelphia, Pennsylvania
Camden Catholic High School Camden, New Jersey	Roman Catholic High School Philadelphia, Pennsylvania
Central Catholic High School Allentown, Pennsylvania	St. James High School Chester, Pennsylvania
Central Catholic High School Pittsburgh, Pennsylvania	St. John the Baptist High School Philadelphia, Pennsylvania
Central Catholic High School Reading, Pennsylvania	St. John's High School Washington, D. C.
Holy Spirit High School Atlantic City, New Jersey	St. Thomas More High School Philadelphia, Pennsylvania
La Salle High School Cumberland, Maryland	Salesianum High School Wilmington, Delaware
La Salle College High School Philadelphia, Pennsylvania	Bishop Neuman High School Philadelphia, Pennsylvania
Monsignor McGinley Scholarship (Holy Child Church)	West Catholic High School Philadelphia, Pennsylvania

The Corporal William S. Diamond II Scholarship which covers full tuition during the sophomore year is awarded annually on the basis of scholastic standing and financial need to a student who has completed his freshman year at La Salle College and is enrolled in a four year curriculum.

"Food Fair Stores Scholarships." The Food Fair Foundation grants annually two scholarships, each valued at five hundred dollars per year for four years, to employees, sons of employees, or sons of deceased employees. Applications are made directly to the College. Awards are made on the basis of civic interest, leadership and scholarship.

THE RESERVE OFFICERS' TRAINING PROGRAM

The primary purpose of the Reserve Officers' Training Corps is to produce commissioned officers for the United States Army Reserve and the Regular Army.

R.O.T.C. instruction is divided into two phases: The Basic Course and the Advanced Course. The Basic Course consists of two academic years of instruction. All freshman and sophomore students who meet the following requirements are required to enroll in and complete successfully the Basic Course. They must be:

1. citizens of the United States;
2. physically qualified under standards prescribed by the Department of the Army;
3. accepted by La Salle College as regularly enrolled students;
4. not less than 14 years of age and under 23 years at the time of enrollment;
5. pass such general survey or screening tests as may apply.

Students who have had previous military service or training may receive credit for the first year; or, for both years of the Basic Course, if the previous service or training is substantially equivalent to that part of the Basic Course for which credit is given.

Those students who have successfully completed the Basic Course and who are selected by the President of the College and the Professor of Military Science and Tactics, may be enrolled in the Advanced Course. Eligible students enrolled in the Basic or Advanced Courses may be deferred from induction into the Armed Forces.

The Advanced Course consists of two academic years of instruction and six weeks of training in a summer camp for artillery students conducted at Fort Sill, Oklahoma. Three hours per week are devoted to military subjects during the Basic Course; five hours per week during the Advanced Course.

Students do not receive any pay while pursuing the Basic Course. While enrolled in the Advanced Course, students receive approximately \$27.00 per month, and, while at summer camp, receive approximately \$75.00 per month, plus food, lodging, uniforms, equipment, medical care and travel pay to and from the camp.

Uniforms, textbooks and equipment are issued to the students at the beginning of each school year and must be turned in by the students at the end of the school year. Textbooks are issued for military subjects only. Uniforms must be worn one day each week.

The successful completion of the Basic Course R.O.T.C. is a prerequisite for a degree from La Salle College. Students are required to maintain a satisfactory scholastic standing in all subjects to remain in the advanced ROTC course.

Upon satisfactory completion of the ROTC course, students will be eligible for a commission in the Organized Reserve Corps. A few outstanding students will be eligible for a commission in the Regular Army.

Prospective students who desire information concerning the Reserve Officers' Training Program should communicate with the Professor of Military Science and Tactics, La Salle College, Philadelphia 41, Pennsylvania.

RESIDENT STUDENTS

Students who live beyond commuting distance and who are unable to live at home or reside with relatives close to the campus are required to live in the College residence halls. Exceptions to this rule will be allowed only with special permission from the Dean of Students and with the consent of parent or guardian.

Application for room accommodations should be made at the time the student confirms his acceptance by the College.

A deposit of \$25.00 must be paid by each student when the application for room accommodations is made. This deposit will be refunded at the end of the college course, less any charges for damage to room or furnishings. In the case of voluntary non-occupancy, the student's "Application for Room Accommodation Deposit" is forfeited.

The College supplies all necessary items of furniture. Resident students are not permitted to add to the furnishings. Each living area is provided with a bed, four drawer chest and mirror, a student desk, desk lamp, desk chair, an easy chair, floor lamp, waste basket, and wardrobe. The College supplies all bed linens, including the spread. The student is required to supply blankets

and personal linens. He is to provide, also, personal laundry service, dry cleaning and pressing.

All students residing in the residence halls are required to sign a "Contract of Lease." Except in the case of mid-year completion, contracts are written to include both the Fall and Spring terms.

Resident students are held responsible for any loss or damage to the residence hall equipment, rooms they occupy, other parts of the building, when the incurred loss or damage is due to their negligence or improper use. Such damage or loss will be deducted from the student's damage deposit.

Occupancy may begin the day before the first day of registration and it may continue until twenty-four hours after the last final examination for the Spring term; or, in the case of seniors, until twenty-four hours after commencement.

Meals for Residents

Dining hall services and procedures have been set up for the benefit of the resident student community. High quality, good portions, and variety of selection are dependent upon total participation. Therefore, daily meals or week-end meals not taken are forfeited. There is no exception to this procedure and no adjustment in fees may be expected for non-participation. Special diets, because of illness or other conditions, may be arranged through the manager of the Dining Hall.

The Dining Hall is not open during the Thanksgiving Recess, Christmas Recess, between-terms recess, or the Easter Recess. If a student remains on campus during any part of the excluded periods, he will be required to purchase his meals off campus.

Telephone Calls

Each floor in the residence halls has its own public phone. Residents may be contacted directly. Calls to residents should not come through the College switchboard.

Automobiles

Resident students may have a car on the campus provided they have the permission of parents. Cars must be registered with the Hall Director. Parking space is available adjacent to the residence halls.

RESIDENCE HALL EXPENSES

The present charge for room and board and other related services is as follows:

Freshmen:

Fall Term	\$400.00
Spring term	375.00
	<hr/>
	\$775.00

Upperclassmen:

Per regular school year	\$750.00
-------------------------------	----------

One-half of the charge is payable at the beginning of each term. Some students or parents may find it convenient to pay the residence hall fee in regular installments during the college year. This may be arranged through the Business Office. Ordinarily, it is expected that payments be made as follows: first installment of one hundred dollars upon occupancy (freshmen entering in the fall term pay one hundred and twenty-five dollars); the second and third installments of one hundred dollars within forty-five and ninety days respectively thereafter; and the balance of seventy-five dollars on or before the tenth day of January, or the fifteenth day of May as the case may be.

Students may not contract for less than a school term. If, for good and sufficient reason, a student is obliged to leave the College, the unused portion of his residence hall dining book will be refunded at the current daily rate as established by the Business Office. No refund will be made on that portion of the fee applicable to room occupancy.

AWARDS AND HONORS

The following prizes are awarded annually:

The Sir James J. Ryan Purse of twenty-five dollars in memory of the late Sir James J. Ryan, K.C.S.G., is offered to the student of the senior class who has the best record in scholarship.

The Harrity Memorial Award for Religious Instruction, founded by Mrs. William F. Harrity, in memory of her husband, the late Honorable William F. Harrity, is open to all college students. It is awarded through a competitive examination.

The Anastasia McNichol Award for English Essay, founded by the late Honorable James P. McNichol, is open to all college students.

The William T. Connor Awards totaling one hundred dollars, in memory of William T. Connor, Esq., '00, LL.D., '39, Trustee of the College, are offered to those seniors who have excelled in certain subjects.

The John McShain Award of fifty dollars, donated by Mr. John McShain, is offered to the senior who has maintained a high scholastic record and who was most active in promoting, apart from athletics, the interests of the College.

The John J. Mooney Award, established under the will of Anna E. Wingert, in memory of John J. Mooney, an alumnus of La Salle College, is granted to the senior with the best scholastic record in language and literature.

The Honorable Vincent A. Carroll Award, donated by the Honorable Vincent A. Carroll, is offered to the senior who has the best scholastic record in Philosophy.

The Vernon Guischard Award of fifty dollars is granted annually to the student in the Upper Division of the Department of French who has maintained the best scholastic record in the study of the language and literature of France.

Two medals, provided by the French Government, are awarded annually to students proficient in the language and literature of France.

The Philadelphia Chapter of the Pennsylvania Society of Public Accountants Award, is offered to the senior with the highest scholastic average in Accounting.

The Pennsylvania Institute of Certified Public Accountants Awards presented to two seniors in recognition of their high scholastic record in accounting subjects and the demonstration of qualities of leadership.

The Army ROTC Medal given each year by the Association of the U. S. Army Artillery to the outstanding graduating cadet of the La Salle College ROTC Unit. The medal is a bronze reproduction of the Palma Vecchio painting of Saint Barbara encircled by the words: "Association of the U. S. Army Artillery ROTC."

The Army ROTC Sabre, donated by La Salle College, is offered to the senior with the best record in Military Science.

The Alpha Epsilon Honor Society Award, donated by the Society, is offered to the senior with an excellent scholastic record who has shown great interest in extra-curricular activities.

The Military Order of the World Wars Medal, given by the Philadelphia Chapter, to the graduating ROTC cadet who excelled in ROTC and has also shown great interest in extra-curricular activities.

The Catholic War Veterans Medal, given each year by the Philadelphia County Chapter to the ROTC freshman who was most active in ROTC activities.

Roman Catholic High School Alumni Award, in the amount of one hundred dollars, is given annually to a graduating senior for general excellence at the discretion of the College.

The Joseph J. Sprissler Award of the Student Congress of the Evening Division recognizes the student who has maintained a good scholastic standing and has participated in an outstanding manner in extra-curricular activities.

THE LIBRARY

The new library building, located on Olney Avenue at 19th Street, houses a collection of approximately 40,000 books and has files of about 300 periodicals. About 5,000 new volumes are added each year to keep the collection up-to-date and adapted to the needs of the students.

An open stack system encourages browsing, and a liberal renewal policy applies to the usual two week loan to encourage maximum use of the books. The library is open more than 60 hours a week, and competent readers' advisers enable students through personal guidance to become proficient in gathering information from indexes, bibliographies, loose leaf services and other bibliographical tools.

PARKING

Students may park on the south side of Olney Avenue; on both sides of Twentieth Street south of Olney Avenue; and on the west

side of Twentieth Street north of Olney Avenue except in the areas marked by "No Parking" signs.

Parking is prohibited within the quadrangle and on the east side of Twentieth Street north of Olney Avenue. Students are subject to fines for violation of parking regulations.

TUITION, FEES, AND OTHER CHARGES

La Salle College reserves the right to amend or add to the charges listed below at any time and to make such changes applicable to students presently enrolled as well as to new students.

ACCEPTANCE DEPOSIT

An acceptance deposit of \$25.00 is required of all new students. A student's acceptance shall not be considered official unless his remittance for this deposit accompanies his "Confirmation of Acceptance." Upon registration, the \$25.00 paid will be credited to the student's tuition account. If the student fails to register, the deposit shall be forfeited.

TUITION

The tuition charge for the regular school year for students carrying a normal schedule is \$450.00. A normal schedule is defined as that standard schedule prescribed by the School or Department, which shall be not less than 12 credit hours and generally not more than 18 credit hours per term.

One-half of the annual tuition is due and payable at the beginning of each term.

The tuition charge for part-time students in the day program (taking less than 12 credit hours) and for full-time students taking more than the normal schedule is \$14.00, per term, for each credit hour of part-time work and for each credit hour in excess of the normal schedule.

STANDARD FEES

MATRICULATION FEE

A matriculation fee of \$10.00, to assist defray the cost of the admissions procedure, is charged to each student entering the College for the first time. No refund will be made on this fee.

REGISTRATION FEE

A registration fee of \$5.00, per term, to help defray the cost of registration services, is charged to each student. No refund will be made on this fee.

GENERAL FEE

A general fee of \$25.00, per term, is charged to all students. This fee provides for the student's use of, participation in, or attendance at, such general services or activities as counseling; religious services and programs; dispensary; publications; debate; glee club; and other student organizations supported by the College; intercollegiate and intramural athletics; and library.

INCIDENTAL FEES AND DEPOSITS**MILITARY SCIENCE FEE**

A military science fee of \$1.00 is charged to each student entering the Basic ROTC program. This fee is charged to indemnify the College for damage caused by the student's misuse of equipment and for the cost of handling uniforms and equipment. No refund will be made on this fee.

Uniforms, textbooks, and equipment issued to students by the Military Department are the property of the United States Government, and the student is responsible for the care and safekeeping of these articles. The student is obliged to return these articles to the Department at the end of the school year; when his course is terminated; or at the time of his withdrawal from the College should this occur before the end of a term.

ROTC DEPOSIT

Students enrolled in the Advanced Course ROTC are required to make a deposit of \$50.00. This deposit is to indemnify the College for possible loss sustained in commutation allowance from the United States Government where a student's interruption of course is caused for reasons other than that of "at the convenience of the Government." This deposit will be refunded to the student at the completion of the course; or in the case of "Termination at the convenience of the Government," when the student returns his uniform and equipment to the Military Department.

SCIENCE LABORATORY FEE

A science laboratory fee of \$5.00 is charged for each course in biology, chemistry, and physics involving laboratory instruction. This fee is to defray the cost of laboratory supplies such as chemicals, glassware, and other laboratory equipment.

GRADUATION FEE

A graduation fee of \$25.00 is payable before graduation by each candidate for a degree. This fee is to cover the cost of the diploma, the use of cap and gown, and all other expenses incidental to commencement exercises.

TRANSCRIPT OF RECORD FEE

A fee of \$1.00 is charged for each duplicate transcript of a college record. There is no fee for the first transcript.

PENALTY FEES

The penalty fees as outlined below are to defray the expenses involved and to discourage indifference toward regulations.

LATE REGISTRATION FEE

Students are required to complete their course registration within the period set forth in the college calendar. Late registration is permitted only in the most unusual circumstances and requires the permission of the Dean of the School and the payment of a fee of \$5.00.

CHANGE OF ROSTER FEE

Unless requested by the College, or a grade of F is recorded, a change of roster, after the first week of class, will be permitted only with the permission of the Dean of the School, and a payment of a fee of \$5.00. This fee does not apply where a student drops a course without substituting another course for it.

DELAYED EXAMINATION FEE

Students are expected to take their final examinations during the regular examination period. Final examinations taken beyond the regular examination period require the permission of the Dean of the School and the payment of a fee of \$1.00, for each examination.

DEFERRED PAYMENT FEE

A fee of \$5.00, per term, is charged at the time of registration for the servicing of a deferred payment account. This fee will be charged also on all unpaid balances existing after the 10th day of the term.

ESTIMATED AVERAGE CHARGES¹

	First Term	Other Terms	Annual Total
Tuition	\$225.00	\$225.00	\$450.00
Matriculation fee	10.00	10.00
Registration fee	5.00	5.00	10.00
General fee	25.00	25.00	50.00
Military Science fee	1.00	1.00
<hr/>			
Total for non-residents	\$266.00	\$255.00	\$521.00
<hr/>			
Room and Board (see Residence Halls)	\$400.00	\$375.00	\$775.00
<hr/>			
Total for residents	\$666.00	\$630.00	\$1296.00

FINANCIAL ARRANGEMENTS**REGULATIONS**

The total term expense is due and payable on the first day of class, and it must be paid within ten (10) days thereafter. Otherwise an arrangement must be made with the Business Office, at the time of registration, for a deferred payment plan. The Business Office issues and makes all adjustments on all student invoices. The student receives his invoice covering the term expense at the time of registration. The student is responsible for this invoice, and the non-receipt or the loss of the invoice does not excuse the student from the regulations regarding the time of payment. If the student loses his invoice, he should apply at the Business Office for a duplicate.

¹ The above estimated charges do not include the cost of books and supplies. Books and supplies average about \$60.00 for the school year. Checks, drafts, and money orders should be made payable to the order of La Salle College.

DEFERRED PAYMENTS

Provision is made under a deferred payment plan for students who may have difficulty in meeting their total expense in advance. The student or his parent is required to enter into a contract whereby he agrees to pay his term expense in four equal installments during the term.

Where a student contracts to pay his term expense in four equal installments, the first payment is due and payable on the first day of class, and it must be paid within ten (10) days thereafter. The remaining three installments are due thirty, sixty, and ninety days respectively thereafter.

A fee of \$5.00, per term, is charged for servicing deferred payment accounts. All unpaid balances existing after the tenth (10th) day of the term shall be subject to the deferred payment fee. If the total unpaid balance is paid on or before any of the due dates, except the due date of the final payment, the unearned portion of the deferred payment fee shall be refunded.

REFUNDS

The acceptance fee, as such, matriculation fee, registration fee, military science fee, and penalty fees are not refundable.

Students who withdraw from the College or from a part of their program for a satisfactory reason, such as prolonged illness, change in working hours, necessary transfer out of town, call to military service, may request a refund of tuition and fees in accordance with the schedule as established by the Business Office. The request for refund must be made at the time of withdrawal. An official withdrawal form must be filed with the Office of the Dean of the School. Refunds shall not be made on voluntary withdrawals or on withdrawals due to poor scholarship.

FINANCIAL OBLIGATIONS

No student who is delinquent in the payment of tuition or other fees or against whom the College holds a record of indebtedness, will be given a diploma of graduation, a certificate, a transcript of record, or a term report of grades until such indebtedness is paid. A student, who owes tuition or other fees at the close of a term, will not receive credit for that term or be permitted to register for a succeeding term until payment is made.

ADMISSION REQUIREMENTS AND PROCEDURES

Application.

Applications for admission to the College may be secured from the Office of Admissions. At the time that an application blank is secured, the applicant also receives a form on which his high school record and the school's appraisal of the applicant are to be submitted. This form is to be mailed to the College directly from the Office of the Principal.

Requirements for Admission.

A. High School Units.

Applicants for admission must present a minimum of sixteen units of high school work which should include the following:

English (four years)	4 units
Mathematics:	
Elementary Algebra	1 unit
Plane Geometry	1 unit
History	1 unit
Natural Science	1 unit
Modern Languages	2 units
	<hr/>
	10 units

The remaining six units may be distributed as follows:

- (1) applicants for the *Liberal Arts* program may present six other units in academic subjects;
- (2) applicants for the *Science and Mathematics* program may present six other units in academic subjects but including an additional unit in mathematics;
- (3) applicants for the *School of Business Administration* may present six academic or commercial units, excluding typing.

B. Language Requirements.

- (1) Applicants to the School of Arts and Science are required to present two units in the same foreign language. If an applicant cannot meet this requirement, he may be eligible for admission, but will be required to take two years of a modern language without receiving credit for the first year language course.

- (2) Applicants to the School of Business Administration may be eligible for admission without presenting two years of language. In such a case, the successful applicant will be required to study language for two years.

C. *Additional Requirements.*

Applicants to the freshman class are required to take the following tests given by the College Entrance Examination Board:

- a. Morning Program—Scholastic Aptitude Test.
- b. Afternoon Program—
 1. English Composition.
 2. Foreign language (to be taken by those who wish to continue the study of that language in college).
 3. Mathematics.
 - a. Intermediate Mathematics for applicants to a non-science major;
 - b. Advanced Mathematics for applicants to a science major.

These tests should be taken in December, January or March for early action on applications for admission. They are also administered in May and August.

At least six weeks prior to the date of the tests the candidate for admission should write to

The Educational Testing Service
Box 592, Princeton, New Jersey
or Box 9896, Los Angeles 27, California.

Arrangements may also be made with the principal or guidance counselor of the applicant's high school.

Candidates for admission must request the Testing Service to forward test scores to the Office of Admissions, La Salle College, Philadelphia 41, Pennsylvania.

ADMISSION WITH ADVANCED STANDING (Transfer Students)

Candidates for admission from colleges which offer courses of study similar to those of La Salle College should submit a transcript of high school work and college work as soon after applying for

admission as is possible. Transfer students are also required to submit the results of College Entrance Examination Board Tests.

No credit is allowed for courses offered with the lowest passing grade given at the institution from which the applicant is transferring.

A transfer student may be required to make up certain courses which belong to the sequence required in the program of studies for which he is applying.

No student admitted to advanced standing will be permitted to graduate unless he has completed his senior year as a full-time student at La Salle College.

VETERANS WITH ADVANCED STANDING

Veterans who have pursued special training courses during military service may be admitted with advanced standing provided the courses they have taken in the service approximate courses included in the program of their choice at La Salle. Records of such courses are evaluated in accordance with the procedures suggested by the American Council on Education.

ADMISSION OF VETERANS

The Veterans Administration has certified the educational program of La Salle College for veteran benefits under Public Law 550, generally known as the Korean G.I. Bill.

Veterans are admitted to La Salle College under the same general conditions as non-veterans. However, certain deficiencies in the credentials of a veteran applying for admission may be cleared up by special procedures. Veterans should consult with the Director of Admissions concerning such procedures.

Veterans who were in active service in the Armed Forces during the period beginning June 27, 1950 and ending January 31, 1955 (including those veterans who continued on active duty beyond January 31, 1955, until the date of their first discharge or release thereafter), are eligible for benefits under Public Law 550.

A veteran eligible under Public Law 550 must initiate a program

of education or training thereunder not later than 3 years after his discharge or separation from active service.

July 25, 1956, is the date of expiration of entitlement to the benefits provided under Public Law 346 and Public Law 16, except for veterans who have continuing entitlement under Public Law 894, Public Law 610, or Public Law 190.

It is the responsibility of the veteran to initiate his educational benefits by securing from and filing with the Veterans Administration Form 7-1990, "Application for Program of Education and Training." The Philadelphia Office of the Veterans Administration is located at 128 North Broad Street. Students beyond the Philadelphia area should apply to their local Veterans Administration Office. It is recommended that the application be filed with the Veterans Administration prior to the opening of the school term.

Veterans attending under Public Law 550 do not receive government benefits until the end of the second month of the school term. They are required to meet their financial obligations to the College by the same method as that prescribed for non-veteran students, even though these obligations fall due before they receive their government benefits.

REGISTRATION

Incoming Freshmen register for their programs of study during the Orientation Period which takes place during the first two weeks before the opening of classes in September.

Registration for all other students takes place during the week prior to the formal opening of classes at the beginning of each semester. Notice of such registration periods is given to all students.

Preregistration for students already in attendance takes place during the semester.

Instructions for registration are given at the time the student registers.

No student may register for more than eighteen semester credit hours without the permission of the Dean of the School.

Students who register late are subject to a late registration fee of five dollars.

CLASSIFICATION OF STUDENTS

A full time student carries a *minimum* of twelve semester hours although normal progress toward a degree requires an average of eighteen hours per week. It may happen that a student's program will require more hours per week.

Part-time students carry a roster of less than twelve hours per week. Students in this category will require more than the normal four years in which to earn a degree.

Students who do not fulfill admission requirements may be admitted to the College to follow particular courses and are considered as special students. They do not register for a degree granting program. Credits earned by a special student may be counted towards a degree as soon as he has met all the requirements for admission and candidacy for a degree provided that the credits thus earned be applicable to his program of studies for the degree. A special student cannot hold a scholarship nor take part in extracurricular activities.

STUDENT REPORTS

A progress report is submitted to the Dean's Office by each instructor at the middle of each term. Final grades are submitted at the end of a semester and these are made part of a student's permanent record. A report of semester grades is mailed to the student's parent or guardian within two weeks after final examinations.

A report at the termination of the freshman year is sent to the principal of the high school from which the student was graduated.

COURSE NUMBERING SYSTEM

Courses are numbered from 100 to 400. Ordinarily, courses numbered in the one and two hundreds are given on the Lower Division which comprises the first four semesters or first two academic years. Courses numbered in the three and four hundreds are ordinarily given on the Upper Division which includes the last four semesters or the last two academic years.

One and two hundred courses are generally referred to as Lower Division courses; three and four hundred courses are referred to as Upper Division courses.

SEMESTER CREDIT HOUR

A credit hour is a quantitative measure of academic achievement. A credit hour represents 15 hours of class activity in lecture courses or 30 or more hours in laboratory work. For example, a science course might meet twice a week for lecture and twice a week for two two-hour laboratory periods making a total of four credit hours for the course which continues for fifteen weeks or one semester.

STUDENT PROGRAM

The program of studies, prescribed by the student's adviser and approved by the Dean of the School in which the student is enrolled, is his official roster of courses.

It is the student's responsibility to see that all the requirements of his program are fulfilled. He should have in writing from the Dean any exceptions to the prescribed program which may be granted him.

WITHDRAWALS

A student who withdraws from the College must submit a written statement to that effect to the Dean of the cognate school. In the event that a student withdraws without submitting the above notification, except where parents or guardian have made a similar request in writing, honorable dismissal is not granted. The date of filing a notice of withdrawal is considered as the date of withdrawal in all cases.

CHANGE OF PROGRAM

A student may be permitted to change from one Lower Division program to another, or from one area of instruction to another, only when his previous record indicates that he may profit by such a change. In any change of this type the student must have the written permission of his future course adviser and the Dean of the cognate school, and he enters the new curriculum on a probation basis. This change may entail taking approved summer courses or an additional semester in college. In no case, may a student

who transfers receive promotion or a degree sooner than he would have received it, had he not transferred. No degree may be received less than one year after change of curriculum.

TRANSCRIPTS

Students may apply at the Registrar's Office for a transcript of their collegiate work. There is a fee of one dollar for every copy of a transcript requested after the first.

CREDIT FOR OFF-CAMPUS COURSES

Course work taken at other institutions by regularly enrolled students at La Salle College may not be offered for credit unless the student has had written permission in advance from the Dean of his School to take such courses. Credit for work done at other institutions will not be granted unless the grade received for such work is equivalent to or higher than the grade "C" at La Salle College.

ATTENDANCE POLICY

Students are expected to attend classes regularly. An allowable number of absences is permitted to provide for conditions beyond the control of the student. Cumulative absences of more than two weeks or consecutive absences of more than one week in any course are regarded as excessive. The instructor of the course will deal with such cases in accordance with the circumstances which necessitated the absence and will give proper notice to the Dean's Office. A student, who is absent to excess without good reason, is given a grade of "F." Attendance is noted from the first regular class meeting regardless of the time of registration.

EXAMINATIONS

The last week of each semester is set apart for final examinations. Examinations to measure student progress are given at mid-term. Final examinations are written. Students who, for satisfactory reasons, fail to take a semester examination at the scheduled time may take a delayed examination. A delayed examination permit must be secured in the Dean's Office.

MAKE-UP EXAMINATIONS

Make-up examinations are given when an "I" grade has been received. The "I" grade is a provisional semestral grade given by an instructor to a student who has otherwise maintained throughout the semester a passing grade in course, but who has failed to take the semester examination in the course or to complete certain prescribed course work. If the absence from the examination is excused by the Dean, the student will take a postponed examination not later than six weeks following the term in which the "I" (Incomplete) grade was given and will receive the grade to which his performance in that examination and his semester's work entitle him. If the absence is not excused by the Dean, or if the unfinished prescribed work is not completed to the satisfaction of the instructor by the end of a two-weeks' period following the term in which the "I" (Incomplete) grade was given, the "I" (Incomplete) will automatically become a "Failure."

GRADES

The following system of grades is used in measuring the quality of student achievement in courses:

A	Superior	(93-100)
B	Very Good	(84-92)
C	Average	(77-83)
D	Passable	(70-76)
F	Failure	(below 70)
I	Incomplete	
N	Conditional	
W	Withdrawal	

In the determination of final grades for courses, recitations, written assignments and the results of the final examination are considered.

The Incomplete grade (I) is assigned to a student who has not fulfilled all the requirements of a course. An incomplete grade becomes a failure if it is not removed within the two weeks following the term in which it was given.

The Conditional grade (N) is assigned at the end of the first term of a two-term course when the work of a student in the first

term has been too poor to merit a passing grade but his attitude and application indicate that he may do satisfactory work in the second term. The "N" becomes an "F" should he receive an "F" for the second term. It becomes a "D" should he receive a passing grade for the second term.

The Withdrawal grades may be WP, if the student's work at the time of an approved withdrawal is satisfactory; WF, if the work is unsatisfactory; and WX, if it occurs within the first weeks and there is no reason for assigning another grade.

SCHOLARSHIP INDEX

A scholarship index system is used at La Salle to determine a student's average grade. In determining the index, each letter grade is ascribed a numerical value, called grade points. "A" is valued at 4 grade points; "B" is valued at 3 grade points; "C" is valued at 2 grade points; "D" is valued at 1 grade point; "F" is valued at zero grade points.

A grade point score is calculated for each course by multiplying the numerical equivalent of the letter grade by the number of semester hours. The index, or the average grade of all courses, is found by dividing the sum of the grade point scores for all courses by the total number of semester hours.

ACADEMIC STANDING

First year students are required to earn a minimum average of 1.50 to be in good academic standing; second year men, 1.75; third year men, 1.90. Averages are computed at the completion of each semester. In addition, a student must have passed successfully those courses required for his prescribed program of studies.

DEAN'S HONOR LIST

The Dean's Honor List is published at the termination of each semester.

Those students who have a cumulative average of 3.4 are placed on the Dean's List. To be eligible for this list, a student must have complied with all the regulations of the College and must

be free of all academic censure. Freshmen are not eligible for inclusion on this list.

Students on the Dean's list are excused from the regulations governing attendance at class. However, they are expected to fulfill the requirements of every course rostered, whatever be the nature of the requirements.

ACADEMIC CENSURE

Academic censure may assume any one of four forms, depending on the gravity of the situation calling for scholastic discipline. An evaluation of student records is made at the end of each semester.

(a) *Warning*. An official warning is given to a student who has received "Failure" grades in one-third of the semester hours which comprised his official roster for the semester last completed.

(b) *Probation*. A student is placed on probation when: (1) he has attained a cumulative scholarship index of (a) less than 1.50 following his freshman year, (b) less than 1.75 following his sophomore year, (c) less than 1.90 following his junior year; or (2) he has received "Failure" grades in more than one-third of the semester hours which comprised his official roster for the semester last completed. Such a student will be continued on probation until he has satisfied the conditions for good standing. A student on probation automatically forfeits the privilege of cuts, participation in extracurricular activities and eligibility for class office.

(c) *Suspension*. This is forced withdrawal from courses and residence with the privilege of returning at the discretion of the Dean of the cognate school.

(d) *Dismissal*. This is forced withdrawal from courses and residence without the privilege of seeking readmission.

A student is liable to dismissal: (1) when he has attained a cumulative scholarship index of (a) less than 1.00 during his freshman year, (b) less than 1.50 during his sophomore year, (c) less than 1.75 during his junior year; (2) if he has received "Failure" grades in one-half of the credit hours of his official roster for that year; (3) if he has been on probation for two successive semesters; or (4) whenever, in the opinion of the Committee on Academic Standing, a student shows by poor scholarship that he

is no longer profiting by the educational program of the College.

The Committee on Academic Standing carefully examines all the factors involved in each case of academic censure. Any student so concerned may request an opportunity to appear in person before the Committee on Academic Standing.

In matters of academic censure, and when the Committee on Academic Standing cannot function, the above forms of censure may be administered by the Dean of the College.

REQUIREMENTS FOR A DEGREE

The candidate for a degree must have completed course work equivalent to a minimum of 132 semester hours. Certain curricula may require a number of hours exceeding this minimum.

He must have obtained a "C" average or cumulative index of 2.00 in his prescribed program of studies.

He must have fulfilled all course requirements prescribed for him by the chairman of the department in which he majored and approved by the Dean of the school in which he is enrolled.

He must have fulfilled the requirements in Philosophy and Religion.

Eight semesters as a full time student are required for a degree. The final two semesters must be spent at La Salle in a full time program.

HONORS

The bachelor's degree with honors is conferred on a student who has completed his course at the College with an average of all marks not lower than 3.4 and who has not incurred the penalty of loss of good standing for disciplinary reasons.

The candidate for the bachelor's degree who has earned an average of 3.8 in all courses is graduated with the designation *Maxima Cum Laude*.

The candidate who has earned an average of 3.6 is graduated with the distinction *Magna Cum Laude*.

The candidate who has earned an average of 3.4 is graduated with the distinction *Cum Laude*.

Honors are computed on the basis of the work done for eight semesters.

OBJECTIVES OF THE STUDENT PERSONNEL PROGRAM

La Salle College, in keeping with the aims and objectives of Christian Education, recognizes that the completeness of higher education demands that the student be provided with the opportunity to develop himself spiritually, morally, intellectually, emotionally, and socially; that he be provided with an opportunity to learn to use his leisure time properly; that he be provided with recreational opportunities. Therefore, the Student Personnel Program at La Salle College offers the following:

1. A special service by trained counselors to assist him in thinking through the various problems which beset a college student.
2. A program of orientation which meets the needs and special interests of the first year college man.
3. A health program and a program of athletic activities.
4. An activities program which stems from student interest.
5. Housing and food services which provide for student comfort and education in group living.
6. Opportunities for part-time employment and financial aid to worthy and needy students.
7. A service to help the student find needed part-time employment during college and suitable employment after leaving the campus.
8. A program of further social, educational and professional development for the alumni.
9. A program of religious activities and religious counseling.

PRE-COLLEGE COUNSELING

After an applicant has been accepted by the College, pre-registration counseling prepares him to make an intelligent choice of a course of studies. This counseling is required of all newly matriculated students. It includes the administration of a battery of psychological tests followed by an interview with a counselor who discusses with the student his scholastic plans. Should further counseling or special assistance be deemed necessary, the Counseling Center provides them. Contacts are maintained with various agencies outside the College for student referral. The counseling service is available to the student on a voluntary basis throughout his college career.

FRESHMAN ORIENTATION

Freshmen are required to report two weeks before the opening of classes in September. During this time, registration is carried out; the greater emphasis, however, is on College Orientation. The Orientation Program is a project of the Student Council under the direction of the Dean of Freshmen. Its purpose is to facilitate the transition from high school to college. Lectures are given on such topics as study habits, note-taking, the aims, ideals and traditions of La Salle College and such other facets of collegiate life as are of importance to the beginning student.

THE COLLEGE ADVISORY SYSTEM

Freshman Counselors.

Early in the Freshman year, counselors are assigned to help the new student make a successful transition to college life at the start of his college career. They are ready to assist with the many demands made upon the new student during the first months in college. This counseling service is preliminary to the academic guidance which is given by the Course Advisers.

Course Advisers.

Members of the faculty serve as advisers giving the guidance which is necessary to enable students to derive the utmost benefit from their programs of study. Close contact with course advisers will enable the new student to familiarize himself with the new procedures and new attitudes expected of college men. Advisers consult with students in the selection of programs of study and courses within such programs. Course advisers work under the direct supervision of the Dean's Office.

THE COUNSELING CENTER

The College maintains a Counseling Center staffed by professionally trained counselors who are available to assist the student in matters pertaining to vocational decisions, personal adjustment and educational planning. The Center renders services in the following areas: aptitude testing and interest inventory; individual counseling; improvement in reading and study habits; information on graduate fellowships and scholarships; occupational information.

While each student is given a basic battery of tests and is provided with an opportunity to discuss the results of these tests with a counselor, it is recognized that, in most cases, this is but an introductory step in the development of a sound vocational choice.

Counseling.

Students who request further assistance in planning for their vocational careers are provided with the opportunity of exploring more fully their own interests and aptitudes. The primary purpose in such counseling is to assist the student in making a sound vocational choice and to plan his educational program to develop his competence accordingly. In addition, personal counseling is available to bring about better social adjustment. Whenever the need occurs, students are referred to other agencies.

Reading Improvement.

The Counseling Center offers an intensive program in the improvement of reading and study habits several times during the course of the academic year. Students may seek the advice of the center on their probable need for such service.

Graduate Fellowships and Scholarships.

The Center maintains an extensive index and file of graduate awards sponsored by private foundations, universities and the Federal Government. The staff assists the student by advising him on various graduate programs, academic standards, procedures to be followed in making applications, and the character of the various awards.

Occupational Information.

The Center maintains an extensive file on occupational information. Many of the pamphlets and brochures are available on a loan basis.

Selective Service Information.

The Counseling Center provides the student with the latest developments in the laws governing selective service and the relations of college students to such legal enactments. While this service is available to the students, the responsibility of providing the draft boards with the required information rests with the student.

THE HEALTH PROGRAM

The principal component of the Health Service is the Infirmary and Dispensary under the direction of the College physician. A registered nurse is in attendance. The Infirmary is located in St. Cassian Hall. The hours for treatment and consultation are from 9:00 A.M. to 3:00 P.M. The Infirmary provides temporary hospitalization for minor illness; removal to a local hospital in the case of serious or prolonged illness is arranged by the College Physician.

All resident students are required to submit to a physical examination by the College Physician.

Medical insurance for students in attendance may be secured through the Office of the Vice President or the Infirmary.

THE PLACEMENT BUREAU

The Placement Bureau offers two services: (1) assisting seniors and alumni in postgraduate placement; and (2) providing Industry and Business with the opportunity to contact graduating seniors.

The Bureau provides an information service for students seeking placement with any of the larger industries and firms. In co-operation with the Counseling Center, the Bureau's staff advises students on all phases of employment.

INTERCOLLEGIATE AND INTRAMURAL ATHLETICS

The athletic program at La Salle College is arranged to allow students to compete in various sports at levels depending on their degree of ability and skill. The program offers opportunities to all students to compete in intercollegiate and/or intramural athletics of their choice.

The objectives of this program are as follows: to aid in the development of the health and physical welfare of the students; to provide students with recreational opportunities; to develop in the students a sense of belonging to the college campus community; to make available the various social and personal benefits attendant upon meeting with students from other colleges and from

visiting the campuses of other institutions; and to help foster high ideals of friendship and loyalty among the students and between the students and the College.

The intramural program is developed to meet the needs of the student body to the extent permitted by presently available facilities. Intramural leagues in seasonal sports—touch football, basketball, tennis, baseball, softball, volleyball, swimming—make provision for full participation by the student body.

The program of intercollegiate competitive sports includes basketball, swimming, soccer, golf, baseball, tennis, track and crew. All students are eligible to compete for varsity positions in these sports. Candidates are called at the beginning of the season in these respective sports.

STUDENT ORGANIZATIONS AND ACTIVITIES

The successful adjustment of the student to collegiate life is effected considerably by campus clubs, “student-initiated” activities, and campus situations which provide opportunities for social and intellectual expression. In this way, many valuable co-curricular and extracurricular relationships are fostered.

Faculty Advisers.

Advisers are appointed for every extracurricular activity. They serve as a liaison between the student organization and the college administration.

Accounting Association.

This is an organization of all upperclassmen who are majoring in Accounting and who are interested in broadening their knowledge of Accounting practices and their relation with business practices in general. The Association brings the members into frequent contact with outstanding men in the field.

Honor Society Of Alpha Epsilon.

The purpose of this society is to provide suitable recognition of scholarly attainment in conjunction with extracurricular activity as well as to promote closer affiliation between students, faculty and alumni.

Alpha Epsilon Delta.

A chapter of this National Pre-Medical Society has been established at La Salle College to foster the development of the pre-medical program and to encourage excellence in premedical scholarship.

Alpha Phi Omega

The Alpha Phi Omega Fraternity is a national organization. The purpose of this organization is to assemble the men of La Salle College in the fellowship of the Scout Law, to develop friendship, leadership and association among trained men, and to promote *service* to the student body and faculty, to youth and community, and to the membership of the Fraternity and to the nation as participating citizens.

The Benilde Club.

The Benilde Club has for its objective to foster a deeper religious spirit in its members and to spread interest in and understanding of vocations to the religious and priestly life among the students.

Caisson Club.

Sponsored by the Reserve Officers' Training Corps, this club has as its primary purposes the maintenance of a high standard of military education; to encourage and foster the essential qualities of good and efficient officership; and to promote friendship and good fellowship among the cadets.

Chymian Society.

The Chymian Society is organized for the purpose of fostering interest in Chemistry. Under its auspices, outside speakers are brought in as part of a program of co-curricular activities.

Circolo La Salliano.

The Italian Club, in addition to a varied social program, offers to interested students and members a cultural program in appreciation of Italian art, music, and literature.

Economics Club.

The Economics Club has for its purpose the furtherance of interest in and understanding of the theoretical and practical aspects of economics with emphasis on Catholic Social Philosophy in relation to economic life.

Education Society.

The Education Society brings together into an organized group those students who are preparing themselves for the teaching profession. This group promotes relationships between the Department of Education and the various public school systems and officials who are responsible for teacher training programs.

El Club Hispano.

This society is organized for the purpose of providing a closer liaison between Spanish students and their department as well as for promoting social and cultural relations between the students of that language.

Fabrician Society.

The Fabrician Society is open to all students interested in the biological sciences. Its aims are similar to those of the Alpha Epsilon Delta, the national premedical honor group.

Gavel Society.

The Gavel Society exists for the general purpose of drawing together those students who are interested in debate. This society provides the membership of the intercollegiate debating teams which represents the College.

Glee Club.

This group is the choral group of the College. Under the direction of a renowned choral leader, Dr. William Sailer, the groups meet twice weekly. A number of concerts and appearances in conjunction with other choral groups fills the yearly calendar.

The Herbert S. Weber Society.

This is the English club at La Salle. Membership is open to all students of the College, particularly those who concentrate in English studies and those Education majors who are preparing for certification to teach English.

International Relations Club.

The IRC is affiliated with the Carnegie Foundation for International Peace and with the National Federation of Catholic College Students. It endeavors to develop discussion leaders and offers opportunities to practice parliamentary procedures.

Interracial Council.

The Council is a group comprising students who are interested in the problems of racial tensions and conflicts. Through their program they endeavor to promote on campus the Catholic concept of justice and brotherhood in interracial relations.

Kappa Mu Epsilon

Membership in the Pennsylvania Beta chapter of Kappa Mu Epsilon, the national honorary undergraduate mathematics society, is awarded those students who are in the upper third of the junior class in general scholarship and whose index in a minimum of twenty-two hours of mathematics is at least 2.70.

Le Cercle Claudel.

Students of French language and culture find an outlet for their interests in this society named for the contemporary French-Catholic diplomat and author, Paul Claudel.

Liturgy Roundtable.

This group meets monthly to discuss the significance of the Sacred Liturgy. Its major interest is in the liturgical spirit of the seasons and the festivals of the Church year.

Marketing Association.

The two-fold purpose of the club is: first, to foster and interest in the field of Marketing; secondly, to promote through discussion the application of ethical principles in the field of Marketing.

The Masque.

The La Salle Masque is a dramatic group offering opportunities to students interested in the stage. Membership is open to all students. Three major productions are staged by the group yearly.

National Federation Of Catholic College Students.

The NFCCS is a national organization of Catholic college students whose purpose it is to acquaint students with their responsibility to the campus community and off-campus communities and to contribute to Catholic lay leadership. The College organization works in close cooperation with other Catholic colleges in the region.

Newtonian Society.

The Newtonian Society is an academic organization devoted to the interests of students in the physical science. It sponsors a series of lectures and field trips of interest to the members.

Philosophy Club.

The Philosophy Club offers an opportunity to consider the problems of Philosophy more extensively than is possible in the required courses but without the emphasis on technical aspects and detail ordinarily required of Philosophy majors. Its purpose is to popularize more and more the consideration of philosophical problems through informal discussions.

Pi Delta Phi.

The purpose of this National French Honor Society is to foster a wider knowledge of and a greater love for the contributions of the French people to world culture.

Podium Society.

The Podium Society encourages student interest in classical and semi-classical music. The Society holds regular meetings in which the classics in music are played and discussed.

Praefectus Club.

This is a student service club composed of the managers of various athletic teams.

Psychology Club

The purpose of the Psychology Club is to provide a means for the further attainment of knowledge and understanding through lectures, movies, trips and discussions. Two secondary purposes of this club will be to foster friendships and good fellowship built on common interest, mutual understanding and similar goals, and to correspond with the alumni now in Graduate Schools in order to gather valuable information about same.

Residence Hall Council.

The purpose of the Council is to represent the needs and problems of those students attending the College who do not reside at home with their parents. This Council directs the social, religious and athletic programs of resident students.

Sigma Beta Kappa—Gamma Chapter.

The Gamma Chapter of Sigma Beta Kappa—a national Catholic organization devoted primarily to the development of character and leadership on the campus based on a strong personal sense of Christian morality—is limited by charter to a small segment of the student body. At the core of its objectives—apart from the social activities of the group—is a program of directing the athletic activities of St. John's Orphanage in the city. The fraternity has a strong alumni membership.

Society For The Advancement Of Management.

This is a student chapter of a national society of professional men interested in management principles. It aims to enhance the application of scientific management principles in industry and to foster the development of future managerial talent.

Sociology Club

This organization aims to assist Sociology majors and the Department of Sociology in providing field trips to social agencies and welfare institutions. Speakers are invited to the campus to lecture on their field of special competence. The club recognizes the need to cultivate comradeship among the students who roster sociology and sponsors socials during the course of the year and the annual picnic early in June.

Varsity Club.

The purpose of the Varsity Club is the organization of varsity lettermen into a group to advance and improve varsity and intramural athletics, to stimulate student interest and to support athletic teams.

History Club.

The Club is interested primarily in the discussion of problems and topics having to do with this field of study. Included in the Club's program are radio discussions of a competitive nature, private meetings of a social and academic nature, the promotion of student interest in graduate fellowships and scholarships in the field of history.

STUDENT GOVERNMENT

The Student Council acts as the official representative of the student body with the purpose of making the views of the students articulate and to promote the best interests of the student body in its relations with the college administration and faculty, other educational institutions and associations, the public in general, and any other groups coming in contact with students.

The Council carries on its activities under the authority of a constitution approved by the student body and sanctioned by the faculty. Membership to the Council is determined by student vote.

STUDENT PUBLICATIONS

La Salle Collegian.

This is a weekly student newspaper. It serves both as a workshop for students who are interested in journalism and as a vehicle for disseminating views and news of interest to the student body.

The Explorer.

This is the annual published by the members of the graduating class. It is a voluntary activity initiated by the students and is supported in the main by individual subscriptions. It serves as a record of college life and activities.

Four Quarters.

While this publication is not entirely a student activity, it does serve as an outlet for the literary expression of students. It is published quarterly and it aims to promote the literary endeavor of students, faculty, alumni and selected outside contributors.

RELIGIOUS ACTIVITIES

The program in religious activities seeks to provide that integrating influence which brings unity to the academic, cultural, social and athletic programs of the student body. Such an integrated program makes of the College a God-centered whole which is an indispensable quality of Catholic education and marks the ideal which is proper to a Catholic college. This ideal is fulfilled by providing opportunities for personal and private worship and by encouraging corporate worship and religious activity.

A well appointed chapel is available both for private devotions and for other corporate religious exercises.

The College provides a resident chaplain who is present for confessions and counsel at all times.

Daily Mass is said for students at 7:25 and 7:55. Confessions are heard during Mass and also daily from 12:15 to 12:45.

Weekly Sunday Mass and confessions are provided for resident students. Devotions of Our Lady of the Miraculous Medal are held weekly during the evening hours for resident students and students in the Evening Division.

First Friday devotions consisting of Mass, Exposition of the Blessed Sacrament and Benediction honor the Sacred Heart each month. During May and October, special evening services in honor of the Most Blessed Virgin are held in the Chapel and at the Lourdes Grotto in the Quadrangle.

A special retreat of three days is held each year which ALL Catholic students are required to attend. A Day of Recollection for married students and their wives is held in the Spring.

During the year, certain feasts are celebrated by special Masses or devotions. A Solemn Mass of the Holy Ghost begins the academic year, and an Evening Mass of the Holy Ghost begins the year for the students of the Evening Division. A special Mass is celebrated on the Feast of Saint Barbara, December 4th, the Patron Saint of Artillerymen, which all members of the R.O.T.C. unit of the College attend in military dress. A solemn Mass in honor of Saint John Baptist de la Salle, the patron saint of the College and of Christian Teachers, is sung each year as part of Founder's Day exercises.

An announced Requiem Mass is said in the College Chapel after the death of any member of the immediate family of a student or faculty member.

THE CAMPUS STORE

Many student needs can be filled at the Campus Store. All items needed by resident students can be purchased there. The Campus Store carries a complete line of accessories of interest to college students such as athletic supplies and equipment, stationery, collegiate jewelry, etc.

THE ALUMNI ASSOCIATION

The Alumni Association seeks to promote the welfare of La Salle College and to encourage good fellowship among alumni. To achieve these ends, the Association works principally through the College Alumni Office, some thirty class organizations and the *Alumni Newsletter*.

The Alumni Association is controlled and directed by the alumni in cooperation with the college administration. The governing board is called the Alumni Board of Directors, consisting of representatives from each graduating class, the Vice President of the College who serves as Alumni Moderator and an Executive Director of Alumni Affairs appointed by the College.

Alumni are encouraged to take an active part in attracting worthy and talented students to apply for admission; to take an intelligent interest in the academic affairs of the College; to support the College financially to the best of their ability; and to foster the growth of the College. These latter purposes are served through the Alumni Annual Giving Program. Alumni are also encouraged to assist the Placement Bureau by calling to its attention job opportunities for La Salle men.

A standard-size *Alumni Newsletter* is published four times yearly by the College and mailed to all alumni.

THE SCHOOL OF ARTS AND SCIENCES

I. Major areas of concentration in the Liberal Arts which offer the degree of bachelor of arts:

Classical Languages

Modern Languages

Economics

Philosophy

English

Sociology

Government

Preparation for Law

History

Teacher Certification

II. Major areas of concentration in the Sciences which offer the degree of bachelor of arts:

Biology

Mathematics

Chemistry

Physics

Psychology

THE SCHOOL OF ARTS AND SCIENCES

This School offers two general programs of study, both of which embody most fully the traditional liberal disciplines of the College: the Liberal Arts program which emphasizes the general disciplines; and the Science program, which, in addition to the core of liberal subjects, offers a concentration in the sciences. Both programs lead to the degree—Bachelor of Arts.

OBJECTIVES

In providing a liberal education for the student, the School of Arts and Sciences makes available to him the opportunity to develop his faculties most fully; to develop the ability to write correct and effective English; to develop the ability to read with facility and to appreciate our cultural, literary and scientific heritage, whether in the classical languages, in French, German, Italian or Spanish; to acquire a basic knowledge of the forms of English and American literature, of the natural and social sciences, of history, philosophy and religion.

The program of studies is organized to permit the student to familiarize himself with the various liberal disciplines during the first four terms of the college program. The first four terms comprise the Lower Division studies. The courses followed on the Lower Division provide the foundation for a general education. The student follows a program which covers Religion, Philosophy, Effective Writing, Literature, Science and Mathematics, Language, Sociology, Government and United States History. This program serves as a foundation for a program of concentration.

The final four terms of the college program comprise the Upper Division level of courses. It is on this level that the student elects an area of concentration so that he might develop himself more fully in the field of his choice and interest. This concentration contributes to his intellectual self-enrichment and prepares him for further study in graduate or professional school, or for a profession requiring a background in the liberal or scientific disciplines.

ORGANIZATION OF PROGRAMS OF STUDIES

LOWER DIVISION

The School of Arts and Sciences offers two major programs on the Lower Division: a general or liberal arts program and a program in science and mathematics.

I. The General Or Liberal Arts Program.

Students desiring to pursue a program in the liberal arts are required to complete the courses listed below during the four terms of the first two years.

FIRST YEAR

<i>Fall</i>		<i>Spring</i>	
Religion 110 ¹	2	Religion 111	2
English 101	3	English 102	3
History 113	3	History 114	3
Economics 111	3	Economics 112	3
Modern Language	3	Modern Language	3
Biology 117 a ² or		Biology 117 b or	
Mathematics 101	3	Mathematics 102	3
Military Science 101 a	1	Military Science 101 b	1
	<hr/> 18		<hr/> 18

SECOND YEAR

<i>Fall</i>		<i>Spring</i>	
Religion 210	2	Religion 211	2
English 205	3	English 206	3
Philosophy 202	3	Philosophy 203	3
Government 101	3	Government 103	3
Sociology 101	3	Sociology 103	3
Elective ³	3	Elective	3
Military Science 201 a	1	Military Science 201 b	1
	<hr/> 18		<hr/> 18

¹ Non-Catholic students follow Phil. 101, 102. Catholic students with a weak foundation in religious studies follow Religion 100, 101.

² Students following a non-science liberal arts program may elect either Mathematics (Algebra-Trigonometry) or General Biology to fulfill the science requirement of the freshman year. Students who have not had Trigonometry in high school are recommended to take General Biology. Students who plan to major in Economics are recommended to take Mathematics as the freshman science elective to prepare themselves for work in Statistics.

³ The elective is usually chosen from the Area in which the student plans to concentrate.

II. The Science And Mathematics Programs.

Students desiring to pursue the specialized curricula of the Science and Mathematics Programs must complete the courses listed below during the four terms of the first two years:

FIRST YEAR

<i>Fall</i>		<i>Spring</i>	
Religion 110 ¹	2	Religion 111	2
English 101	3	English 102	3
History 113	3	History 114	3
Language ²	3	Language	3
Biology 102 a ³ or	4	Biology 102 b or	4
Chemistry ⁴	4	Chemistry	4
Mathematics ⁵	3-4	Mathematics	3-4
Military Science 101 a	1	Military Science 101 b	1
<hr/>		<hr/>	
19-20		19-20	

¹ Non-Catholic students follow Phil. 101, 102. Catholic students with a weak foundation in religious studies follow Religion 100, 101.

² Chemistry majors are required to take German as a modern language in preparation for Scientific German.

³ Biology and Psychology majors take General Zoology.

⁴ Chemistry, Mathematics and Physics majors take Chemistry 111-112.

⁵ Biology students preparing for dentistry or teacher certification may elect College Algebra and Trigonometry (Mathematics 101-102); all other science students take Mathematical Analysis (Mathematics 103).

SECOND YEAR

<i>Fall</i>		<i>Spring</i>	
Religion 210	2	Religion 211	2
English 205	3	English 206	3
Philosophy 202	3	Philosophy 203	3
Physics ¹	4	Physics	4
Major elective ²	3-4	Major elective	3-4
Mathematics 205 ³	3	Mathematics 206	3
Military Science 202 a	1	Military Science 202 b	1
<hr/>		<hr/>	
19-20		19-20	

¹ Biology majors take Physics 201, 202; Chemistry, Mathematics and Physics majors take Physics 211, 212.

² Biology majors take General Chemistry (101, 102 or 111, 112); Chemistry students take Analytical Chemistry (301, 302); Psychology students take General Psychology (207, 208). Mathematics and Physics majors consult with Course Advisors.

³ Calculus is optional for Biology and Psychology students; it is required for Chemistry, Mathematics and Physics students. Introductory Sociology is recommended as an elective for Biology and Psychology students who do not elect Calculus.

LOWER DIVISION REQUIREMENTS

To qualify for admission to the Upper Division, the student must complete the work of the lower division with a minimum of sixty-eight semester credit hours and a scholastic index of 2.00. Furthermore, he must make grades of "C" or better in those courses which are prerequisites for the advanced work in his chosen field of concentration. Under certain circumstances a student may be permitted to change from one lower division program to another and when his record indicates that he may profit by such a change. Permission must be obtained from the Dean. In any case of this type, the student enters the upper division on a probationary basis. This may entail taking approved summer courses or an additional semester in college.

Modern Language Placement.

Students who make less than a qualifying grade in the language placement test or who present less than two units of modern foreign language from high school are required to take elementary language during the freshman year and intermediate language during the sophomore year. Students who plan to go to graduate school after completing their course at La Salle are urged to take French or German as their foreign language because of the importance of these languages in graduate study.

Speech.

All freshmen are required to take a course in Public Speaking. It is a one credit course and may be rostered in either semester of the first year.

UPPER DIVISION

The following majors or areas of concentration are offered on the Upper Division. The student is expected to have chosen electives on the Lower Division which meet the requirements of the area of concentration which he elects. The courses on the Upper Division listed in the programs of study that follow are prescribed by the departments as required. The courses in religion and philosophy are required in all areas of concentration.

Students are to follow the curricula prescribed herein. This is the responsibility of the student. Course programs may not be altered in individual cases without the written permission of the course adviser and the approval of the Dean of the School in which the student is enrolled.

PREPARATION FOR MEDICINE

The large number of students who desire to prepare for medicine has placed emphasis upon the science program of the College. To meet the needs of these students a special program of concentration which fulfills the basic requirements of The Association of American Medical College is provided. Medical schools which are members of this Association uniformly require for admission the following courses:

General Inorganic Chemistry	8 s.c.h.
Organic Chemistry	4 s.c.h.
Physics	8 s.c.h.
Biology	8 s.c.h.
English Composition and Literature	6 s.c.h.

In addition to these basic courses, many medical schools specify certain special courses. It is advisable, therefore, that the pre-medical student familiarize himself with the exact requirements of the school to which he will apply.

A prospective medical student may concentrate in Biology or Chemistry and, at the same time, meet the requirements for medical school. Only those students who do better than average work in the premedical courses shall qualify for a favorable recommendation from the faculty.

PREPARATION FOR DENTISTRY

The basic requirements for admission to most dental schools are the same as those for admission to medical schools. The special courses, however, vary with each school. It is recommended, therefore, that the prospective dental student acquaint himself with the requirements of the school which he plans to enter.

A prospective dental student may concentrate in Biology or Chemistry and, at the same time, meet the requirements for dental school.

UPPER DIVISION REQUIREMENTS

The general requirements for the completion of any of the upper division curricula are the successful completion of twelve hours in the required philosophy courses, four hours in required religion courses, and a minimum of thirty-two hours in courses in one area of instruction, plus sufficient other courses to bring the total number of semester credit hours to sixty-four. This total of upper division courses together with the sixty-eight semester hours earned on the lower division gives the student the required total of one hundred and thirty-two semester credit hours for the four years. There is the further stipulation that the sixty-four hours earned on the upper division must be in courses designated as upper division courses for the curriculum which the student is following.

THE SCHOOL OF BUSINESS ADMINISTRATION

**The following areas of concentration lead to the degree of
bachelor of science:**

ACCOUNTING

FINANCE

GENERAL BUSINESS

INDUSTRIAL MANAGEMENT

INDUSTRIAL RELATIONS

MARKETING

THE SCHOOL OF BUSINESS ADMINISTRATION

The School of Business Administration was established as a separate division of the College with its own administration in September of 1955. The increased enrollment in the College with the consequent demand for a greater variety of curricula in Business Administration made such a development inevitable. The College, however, has not lost sight of its fundamental character as a college of liberal arts. In the establishment of a School of Business, the values of a liberal education are not in any way minimized. The College retains the position that the true essence of education rests in the inculcation of the liberal arts in intellectual formation. While the School of Business Administration is established as a separate division, this move does not bring about any basic change in the curriculum. The programs of study in the School of Business Administration retain their basic liberal character and, in this way, preserve a healthy balance between general education and the specialization that is required of the type of training given in a semi-professional program.

OBJECTIVES

Over and above the general objectives of the College, the School of Business Administration, while providing a sound general education through a substantial program in the liberal disciplines, strives to give a basic understanding of business as a foundation for specialization in a particular area. This broad background is provided through a study of the organization and structure of business as an enterprise; a study of economic forces and the problems created by them; a study of the legal foundations of business and of the fundamental skills used in business organizations.

The student in the School of Business Administration builds on this foundation. He may select as an area of concentration a program in Accounting, General Business, Finance, Industrial Management, Industrial Relations, or Marketing. Concentration in any of these areas will prepare him for specific professional fields or for further graduate study.

PROGRAMS

Accounting.

The Accounting curriculum is designed to ground the student in all of the accounting processes that he will need to know in entering business, in preparing for the licensing examinations for the professional degree of Certified Public Accountant, or in entering a Graduate School of Accounting.

General Business.

This curriculum is designed to prepare the student to enter the business world well-equipped with a general knowledge of the principles that govern business operations, or to enter a Graduate School of Business.

Finance.

This curriculum studies the structural organization and operation of our economic and financial systems and their inter-relationships with the specific techniques and practices of financial institutions of all types in the United States.

Industrial Management.

This curriculum stresses the various factors that enter into the organization and operation of a business establishment; these factors are integrated with specialized courses in such subjects as Time And Motion Study, Industrial Relations, etc.

Industrial Relations.

This curriculum is substantially similar to that in Management. Emphasis, however, is placed upon personnel relations and labor organizations.

Marketing.

This curriculum studies those activities—sales, advertising, sales management, wholesaling, retailing, merchandising, sales promotion, marketing research—which are involved in the flow of goods and services from the point of production to the consumer.

Language Requirement.

Students who present two units of modern foreign language from high school may elect Sociology, or they may take the language placement test in an effort to qualify for intermediate language.

Students who present less than two units of modern foreign language from high school must take elementary language during the first year and the intermediate language during the second year.

Speech.

All freshmen are required to take Public Speaking. It is a one credit course and may be rostered on either semester of the first year.

ORGANIZATION OF PROGRAMS OF STUDIES LOWER DIVISION

Students desiring to pursue the specialized curricula of the Business Program must complete successfully the courses listed below during the four terms of the first two years:

FIRST YEAR

<i>Fall</i>		<i>Spring</i>	
Religion 110	2	Religion 111	2
English 101	3	English 102	3
Economics 111	3	Economics 112	3
History 113	3	History 114	3
Accounting 101	3	Accounting 102	3
Language or		Language or	
Sociology 101	3	Sociology 103	3
Military Science 101 a	1	Military Science 101 b	1
	<hr/>		<hr/>
	18		18

SECOND YEAR

<i>Fall</i>		<i>Spring</i>	
Religion 210	2	Religion 211	2
English 205	3	English 206	3
Philosophy 202	3	Philosophy 203	3
Business Law 201 a	2	Business Law 201 b	2
Finance 201 ¹	3	Finance 202	3
Major Elective ²	3	Major Elective	3
Military Science 201 a	1	Military Science 201 b	1
	<hr/>		<hr/>
	17		17

¹ Sophomores rostering Language postpone Finance 201 to the Junior year.

² Accounting majors take Accounting 202; Marketing majors take Marketing 301; others take Industry 301.

LOWER DIVISION REQUIREMENTS

In order to qualify for admission to the Upper Division, the student must complete the work of the Lower Division with a minimum of sixty-eight semester credit hours and a scholastic index of 2.00. Furthermore, he must make grades of "C" or better in those courses which are prerequisite to the advanced work in his chosen field of concentration.

Under unusual circumstances a student may be permitted to change from one Lower Division Program to another only when his record indicates that he may profit by such a change. Permission must be obtained from the Dean. In any case of this nature, the student enters the Upper Division on a probation basis. This may entail taking approved summer courses or an additional semester in college.

UPPER DIVISION

The courses in the Upper Division curricula listed in the programs which follow are, with the exception of the Religion and Philosophy courses, prescribed by each major. Course programs may not be altered except with the written approval of the Course Adviser and the Dean of the School.

UPPER DIVISION REQUIREMENTS

The general requirements for the completion of any of the upper division curricula are the successful completion of twelve hours in the required philosophy courses, four hours in required religion courses and a minimum of thirty-two hours in courses in one area of instruction, plus sufficient other courses to bring the total number of semester credit hours to sixty-four. This total of upper division courses together with the sixty-eight semester hours earned on the lower division gives the student the required total of one hundred and thirty-two semester credit hours for the four years. There is the further stipulation that the sixty-four hours earned on the upper division must be in courses designated as upper division courses for the curriculum which the student is following.

ACCOUNTING

FRANCIS J. GUERIN, C.P.A., *Chairman*

ACCOUNTING 101, 102. Principles of Accounting.

This course introduces the elements of Accounting to future accountants, business managers, engineers, investors, etc. A thorough training is given in the fundamental principles of recording business transactions, including a study of the presentation and interpretation of the financial data of a single proprietorship, partnership and corporation. Three hours of lecture per week; two terms. **Six credits**

ACCOUNTING 201, 202. Accounting Theory.

This course embodies a detailed study of the application of current accounting principles and procedures to such problems as balance sheet valuation, profit determination, equity presentation, flow of working capital, depreciation of tangibles and intangibles, application of funds and comparative statement presentation. Prerequisites: Accounting 101, 102. Three hours of lecture per week; two terms. **Six credits**

ACCOUNTING 303. Cost Accounting.

Discussion of the necessity, importance and place of cost accounting in modern enterprise; purchasing and issuing of materials and maintenance of perpetual inventory records; control of labor; methods of distributing factory overhead expense; and evaluation of the problems involved in shrinkage and idle time; consideration of forms used in "job and process" cost systems. Prerequisites: Accounting 101, 102. Four hours of lecture per week; one term. **Four credits**

ACCOUNTING 304. Auditing.

A practical presentation of modern audit practices, emphasizing the principles and objectives of an audit. Analysis is made of the audit basis, the best standards, objective reporting, the adoption of improved accounting standards, business controls, professional ethics and legal liability. Prerequisites: Accounting 201, 202. Four hours of lecture per week; one term. **Four credits**

ACCOUNTING 405, 406. Advanced Accounting Theory and Problems.

A detailed study of home office and branch accounting; correction of financial statements; partnership adjustments and liquidations; mergers and the preparation of consolidated financial statements; insolvency in connection with realization and liquidation. Prerequisite: senior rating. Three hours of lecture per week; two terms. **Six credits**

ACCOUNTING 407. Income Taxes.

This course gives the student a picture of the entire federal tax structure and provides training in the application of the basic principles to the solution of tax problems. The course embodies individual income tax returns, inclusions, exclusions and capital gain or loss applicable thereto;

pay-as-you-go tax collection system; partnership, corporation and fiduciary income tax returns; social security, estate and gift taxes. Prerequisites: Accounting 101, 102. Four hours of lecture per week; one term.

Four credits

ACCOUNTING 408. Specialized Accounting Systems.

Principles and practices of accounting for the financial operation of building and loan associations, stock brokerage firms, insurance companies, department stores, public utilities and governmental units; basic differences between accounting for these specialized organizations and for industrial and commercial enterprises; analysis of various funds, statements of operation and financial position. Prerequisite: Accounting 304. Three hours of lecture per week; one term.

Three credits

BIOLOGY

ROLAND HOLROYD, PH.D., *Chairman*

BIOLOGY 102 a, b. General Zoology.

This introductory course deals with the characteristics of living matter, cell structure and functions, the physiology of organ systems, the comparative anatomy of leading phyla of animals and problems of heredity. Three hours of lecture and recitation, two hours of laboratory per week; two terms.

Eight credits

BIOLOGY 117 a, b. General Biology.

This is a terminal course designed for those who can take only one year of biology. It introduces the student to the structure and metabolism of seed plants and vertebrate animals. Only a brief survey is made of the plant and animal kingdoms. It concludes with matters of heredity as illustrated by plant and animal breeding. Three hours of lecture and recitation, two hours of laboratory per week; two terms.

Eight credits

BIOLOGY 301 a, b. General Botany.

This introductory course includes: (a) a study of the form, structure and life processes of flowering plants; (b) the life-histories and phylogenetic advances seen in representative types of lower plants as well as seed plants. Either Biology 102 or some other introductory course in biology should precede this course. Two hours of lecture and recitation, two hours of laboratory per week; two terms.

Six credits

BIOLOGY 303. Mammalian Anatomy.

A study of the functional anatomy of mammals with lectures devoted to introductory principles of mammalian physiology, and laboratory sessions to the dissection of the domestic cat. Prerequisite: Biology 304. Two hours of lecture, four hours of laboratory per week; one term.

Four credits

BIOLOGY 304. Comparative Anatomy of the Chordates.

An introductory study is made of the principal theories accounting for the origin and radiation of the chordates. Comparative anatomical studies are

made of the skeletal, muscular, digestive, respiratory, circulatory, urogenital and nervous systems of the chordate classes (exclusive of Mammalia). Laboratory dissections of a fish, amphibian, reptile and bird are required. Prerequisite: Biology 102 (or 117 & 318). Two hours of lecture, four hours of laboratory per week; one term. **Four credits**

BIOLOGY 318, a, b. Systematic Biology.

A study of the phylogenetic development of plants and animals is undertaken. Representative types of plants and animals are studied from the protozoa to the chordates and from the bacteria to the flowering plants. This course is the equivalent of and is taken in conjunction with the second semesters of Biology 102 and 301. Prerequisite: Biology 117. Two hours of lecture and recitation, two hours of laboratory per week; two terms.

Six credits

BIOLOGY 405. Histology.

The course is designed to acquaint the student with the minute structure of various tissues together with their relationships in the formation of animal organs. Prerequisites: Biology 303 and 304. Two hours of lecture, four hours of laboratory per week; one term.

Four credits

BIOLOGY 407. Introductory Bacteriology.

A lecture-demonstration course concerned with the role of bacteria in nature and especially in human affairs. Prerequisite: Biology 301 or 318. Two hours of lecture per week; one term.

Two credits

BIOLOGY 408. Cell Physiology.

The physical properties, chemical structure and metabolism of the cell in general are studied. The application of these properties to specialized types of cells is undertaken. Prerequisites: Biology 301 or 318; Chemistry 303; Physics 201; and permission of the course adviser to register. Two hours of lecture and demonstration per week; one term.

Two credits

BIOLOGY 412. Organic Evolution and Genetics.

A lecture course outlining briefly the history of the development of evolutionary thought and presenting the evidence for organic evolution, together with the leading theories which have been advanced; the scope and method of genetics or modern experimental evolution; Mendel's laws of heredity as applied to plants and animals. Prerequisites: Biology 102 and 301 or 117. Two hours of lecture per week; one term.

Two credits

BIOLOGY 414. Taxonomy of the Angiosperms.

A study of the classification of seed plants is made. Practice in the use of keys of identification is afforded. The phylogeny and economic importance of the leading families of flowering is emphasized. Prerequisite: Biology 301 or 117. One hour of lecture, two hours of laboratory per week; one term.

Two credits

BIOLOGY 415. Horticultural and Forest Botany.

The relation of man to cultivated plants is studied. Soil, plant propagation, the elements of landscape horticulture together with the basic problems of forestry are included in this course. Visits to greenhouses and botanic gardens are made. Prerequisite: Biology 301 or 117. Two hours of lecture per week; one term.

Two credits

BIOLOGY 416. Embryology.

Fundamental processes underlying vertebrate development and differentiation are studied. The frog, chick and pig form the basis of instruction. Student preparations of whole mounts and serial sections are made to illustrate principles of microscopy employed in the field of embryology. Prerequisite: Biology 304. Two hours of lecture, four hours of laboratory per week; one term.

Four credits

BIOLOGY 421. History of Science.

The student is introduced to scientific thought and discoveries from the earliest times to the present. Individual work in the history of the biological sciences is required. Prerequisite: Biology 102 or 117. Two hours of lecture per week; one term.

Two credits

BUSINESS LAW

ROBERT F. LAVELLE, LL.B., *Chairman*

BUSINESS LAW 201 a, b. Law of Contracts.

Law of Contracts is designed to introduce the student to the more common rules and principles governing business transactions; the rights and duties of individuals resulting from contractual and quasi-contractual obligations; and the legal relationship of principal and agent. Two hours of lecture per week; two terms.

Four credits

BUSINESS LAW 302. Law of Business Associations.

Law of Business Associations covers the common and statute laws relative to the creation, operation and termination of partnerships, joint stock companies, business trusts, and corporations. Throughout the course, emphasis is placed upon the Uniform Partnership Act and the Business Corporation Law of the State of Pennsylvania. Prerequisite: Business Law 201 a, b. Three hours of lecture per week; one term.

Three credits

BUSINESS LAW 303. Law of Personal Property.

Law of Personal Property deals with the common and statute laws relative to the purchase, sale, transfer and bailment of personal property. The subjects covered include secured transactions; the legal relationship of bailor and bailee carriers and shippers or passengers; vendor and vendee. Prerequisite: Business Law 201 a, b. Three hours of lecture per week; one term.

Three credits

BUSINESS LAW 305. Law of Real Estate.

Although this course is designed principally for those engaged in real estate, it is also of value to all students wishing a well rounded knowledge of real estate transactions. This course covers common and statute law and court processes which the real estate salesman and broker encounter in their daily work, including the legal principles applicable to the agreement of sale, mortgages, deeds, leases, adverse possession, easements, licenses, proving and recording title. Prerequisites: Business Law 201 a, b; Business Law 303. Three hours of lecture per week; one term. **Three credits**

BUSINESS LAW 404. Law of Negotiable Instruments.

The first half of the course deals with the application of the principles of common law and those of the uniform commercial code to the various papers used in business transactions. The second half covers the laws of principal and surety, and insurer and insured as related to the use of commercial paper. Prerequisite: Business Law 201, a, b. Three hours of lecture per week; one term. **Three credits**

CHEMISTRY

BROTHER M. EDWARD, F.S.C., LITT.M., *Chairman*

CHEMISTRY 101, 102. General Chemistry.

The fundamental concepts, laws and theories of chemistry are presented; and the quantitative aspects are emphasized by suitable experiments and calculations. Proportionate time is devoted to the descriptive study of some of the elements and their compounds. Three hours of lecture, three hours of laboratory per week; two terms. **Eight credits**

CHEMISTRY 111, 112. General Chemistry.

This course covers the same content as Chemistry 101, 102; however, emphasis is placed on the mathematical approach to this content. This course is intended for Chemistry, Mathematics and Physics majors. Three hours of lecture, three hours of laboratory per week; two terms. **Eight credits**

CHEMISTRY 301. Qualitative Analysis.

The principles of ionization, chemical equilibria, solubility product, hydrolysis and complex ions are discussed in relationship to inorganic qualitative analysis. The laboratory work involves the analysis of simple and complex mixtures for both cations and anions. Two hours of lecture, four hours of laboratory per week; one term. **Four credits**

CHEMISTRY 302. Quantitative Analysis.

Neutralization, oxidation-reduction, chemical equilibria, colloids and the methods of quantitative chemical analysis are discussed in lecture. The laboratory experiments include the analysis of sufficient samples to train thoroughly in volumetric and gravimetric techniques. Two hours of lecture, six hours of laboratory per week; one term. **Four credits**

CHEMISTRY 303, 304. Organic Chemistry.

The principles of chemistry are extended and applied to the study of carbon compounds, including both aliphatic and aromatic derivatives. In the laboratory typical organic compounds are prepared and studied. Three hours of lecture, three hours of laboratory per week; two terms. Prerequisites: Chemistry 101, 102. **Eight credits**

CHEMISTRY 306. Physical Chemistry.

The elementary theoretical principles applicable to all branches of chemistry are studied. Laboratory experiments to illustrate these principles are performed. **This course is intended for Biology majors.** Prerequisite: Chemistry 302. Two hours of lecture, four hours of laboratory per week; one term. **Four credits**

CHEMISTRY 405, 406. Physical Chemistry.

The elementary principles of physical chemistry are discussed and illustrated by suitable laboratory experiments. A study of the ideal gas, real gases, liquids, solids, elementary thermodynamics, thermochemistry, solutions, equilibria, kinetics, electromotive force, electrical conductivity and chemical thermodynamics are included. Prerequisites: Chemistry 302; Mathematics 206, 207. Three hours of lecture, four hours of laboratory per week; two terms. **Eight credits**

CHEMISTRY 407. Qualitative Organic Analysis.

A study of the classifying reactions of organic compounds as exemplified by the analysis of compounds and mixtures in the laboratory. **This course is restricted to Chemistry majors.** Prerequisites: Chemistry 301, 302, 303, 304. Eight hours of laboratory per week and individual conferences. One term. **Four credits**

CHEMISTRY 408. Advanced Quantitative Analysis.

An extension of Chemistry 302 in which the principles of physical chemistry as applied to quantitative analysis are presented. Calibration of apparatus, mineral analysis, electrodeposition, conductimetric and potentiometric titrations, colorimetric and spectrophotometric analysis are included. Prerequisites: Chemistry 301, 302. Eight hours of laboratory per week and individual conferences; one term. **Four credits**

CHEMISTRY 410 and/or 411. Chemical Research.

The course makes provisions for individual laboratory or theoretical work under supervision of a staff member. **This course is restricted to Chemistry majors.** Hours to be arranged. **Three credits per term**

CHEMISTRY 421. History of Science.

This is an introduction to scientific thought and scientific discoveries from the earliest times to the present. Individual work in the history of chemistry is prescribed. Two hours of lecture per week; one term. **Two credits**

CHEMISTRY 430. Advanced Organic Topics.

The course is designed to extend the knowledge of organic chemistry, and will emphasize those topics that are not fully developed in the elementary course. An introduction to the literature of chemistry is also included. Prerequisites: Chemistry 303, 304. Three hours of lecture per week; one term. **Three credits**

THE CLASSICS

BROTHER G. JUDE, F.S.C., PH.D., *Chairman*

CLASSICS 301, 302. Greek Masterpieces.

Some of the great books of Greek literature are read in their English translation and are studied in their proper setting. No knowledge of Greek is required. The course is offered in alternate years with Classics 303, 304. Two hours of lecture per week; two terms. **Four credits**

CLASSICS 303, 304. Latin Masterpieces.

Some of the great books of Latin literature are studied in their proper historical setting. No knowledge of Latin is necessary. The course is offered in alternate years. Two hours of lecture per week; two terms. **Four credits**

CLASSICAL LANGUAGES

BROTHER G. JUDE, F.S.C., PH.D., *Chairman*

GREEK**GREEK 101, 102. Elementary Greek.**

The course is an introductory study of forms and syntax. It includes reading and translating exercises; exercises in prose composition. Three hours of lecture per week; two terms. **Six credits**

GREEK 201. Intermediate Greek.

There is a review of forms and syntax. Reading from Xenophon's *Anabasis* are selected. Exercises in prose composition are included. Three hours of lecture per week; one term. **Three credits**

GREEK 301. The New Testament.

Selected passages are read with special attention given to the Greek forms peculiar to the New Testament. Three hours of lecture per week; one term. **Three credits**

GREEK 401. Advanced Readings in Greek.

Selections are taken from Homer, Demosthenes, Plato and Euripides. This course will be adapted to the individual needs of students and may be repeated for credit. Three hours of lecture per week; one term. **Three credits**

LATIN**LATIN 101, 102. Elementary Latin.**

This course is intended for those who are beginning the study of Latin. It offers a thorough grounding in forms and vocabulary. There is regular exercise in reading and writing Latin. Three hours of lecture per week; two terms. **Six credits**

LATIN 201, 202. Intermediate Latin.

The course provides a review of forms and syntax. There is rapid review of easy selections in prose and poetry. This course is intended for those who are in need of a thorough and systematic review of Latin fundamentals. Three hours of lecture per week; two terms. **Six credits**

LATIN 301. Readings in Latin Literature.

Selected works, prose and poetry, in classical, patristic, and medieval Latin will be read and studied. This course will be adapted to the needs of the students and may be repeated for credit. Three hours of lecture per week; two terms. **Six credits**

LATIN 401. Latin Inscriptions.

Selected Latin inscriptions illustrative of Roman private life will be read. A study will be made of work done in the field of epigraphy. Three hours of lecture per week; one term. **Three credits**

ECONOMICS

JOSEPH F. FLUBACHER, ED.D., *Chairman*

ECONOMICS 111, 112. Principles of Economics.

This is a general introductory course designed to acquaint the student with fundamental economic principles and processes as they appear in such phenomena as production, exchange, price, distribution, consumption and national income. This course is a prerequisite for all other economic courses except Economics 415 and 416. Three hours of lecture per week; each term. **Six credits**

ECONOMICS 201, 202. Money and Credit.

The principles of money, monetary standards and the commercial bank as a creator of credit are treated. Emphasis is placed on Federal Reserve monetary and United States Treasury fiscal policies and their effects on the economy. Three hours of lecture per week; two terms. **Six credits**

ECONOMICS 312. Economic Problems.

Current economic problems of national life are analyzed and discussed. Problems treated include economic growth, economic inequality, business cycles, public finance, monopoly, and international trade. Four hours of lecture per week; one term. **Four credits**

ECONOMICS 313. Business Statistics.

This is a general introduction to the basic ideas and procedures of statistical analysis with special emphasis on their application to economics and business. Topics treated include sources, collection and presentation of statistical data, measures of distribution and dispersion, statistical inference, index numbers and time series analysis. Four hours of lecture per week; one term.

Four credits

ECONOMICS 317. Labor Problems in America.

This course is devoted to the study of the sources of the union movement, its history, structure, and functions. Considerable attention is given to the development of economic, political and social power, as well as to the problems involved in the use of this power. Management rights and management reaction to unions are also treated. Emphasis is placed on the discussion of these problems. Readings and term papers are required. Four hours of lecture per week; one term.

Four credits

ECONOMICS 322. American Economic History.

The history of the growth and development of the economic institutions of the United States from the Age of Discovery to the "New Deal" and their influences on political and social organization. Four hours of lecture per week; one term.

Four credits

ECONOMICS 415. History of Economic Thought.

A detailed study of the development of the leading economic concepts is made. The contributions of the early philosophers, the Middle Ages, the Mercantilists, the Classicists and the Neo-Classicists are considered. Three hours of lecture per week; one term.

Three credits

ECONOMICS 416. Contemporary Economic Systems.

This course is, in part, a continuation of Economics 415. The German historical schools, Marginal Utility school, American economic thought, and the economics of J. M. Keynes are treated. These are followed by a survey of socialism, both utopian and scientific, and an examination of the rise and development of the communist and fascist movements. The socio-economic program of the papal encyclicals is also considered. Three hours of lecture per week; one term.

Three credits

ECONOMICS 418, 419. Intermediate Economic Theory.

Recent developments in value and distribution theory, international economics, and macro-economics. Two hours of lecture per week; two terms.

Four credits

ECONOMICS 420, 421. Seminar.

A study of methodology in economics and of the techniques of preparing research reports. The second semester includes readings, discussions and presentation of individual research reports on phases of contemporary economic thought. Required of majors in economics and open to others with permission of the department chairman. Three hours of lecture per week; two terms.

Six credits

EDUCATION

BROTHER F. AZARIAS, F.S.C., M.A., *Chairman*

EDUCATION 301. The School—Introduction to Education.

The course treats the place of the public school in American society; the changing objectives of the school brought about by the expansion and development of society; the growth of the school population; changes in methods of financing schools; curricular and co-curricular developments; and the interest of the community in the new type of teacher needed to conduct the school. Three hours of lecture per week; one term.

Three credits

EDUCATION 302. The Child—Educational Psychology.

The concept that it is the right of every American child to receive an elementary and secondary education at public expense has highlighted the need to understand the child's interest, needs, and abilities. Identification of these has developed a growing body of material on the child. A psychology of individual differences is necessary for the teacher in his relations with the pupils. Teachers, supervisors, administrators, guidance counselors, vocation counsellors—all are available to help the child make an adjustment within the school and the community. Three hours of lecture per week; one term.

Three credits

EDUCATION 303. The Teacher—General Methods of Teaching.

The course deals with the common problems met by the teacher in dealing with the child in the classroom situation; discipline, use of visual aids, lesson planning, tests and measurement, etc. Three hours of lecture per week; one term.

Three credits

EDUCATION 401. The Subject—Special Methods of Teaching.

The course treats methods of teaching in particular fields of subject matter. The course is ordinarily given by a member of the department or field of concentration in which the prospective teacher is preparing to qualify for certification. Lessons are prepared and given by the prospective teacher to a group of students who, like himself, are preparing for the same certification. These practice lessons provide for the evaluation, criticism, correction and re-planning which constitute the laboratory experience which is an integral part of the course. Three hours of lecture per week; one term.

Three credits

EDUCATION 402-403. Observation and Practice Teaching.

Prospective teachers are assigned to selected schools where, under the supervision of critic teachers, an opportunity is provided for teaching in live situations. Student teachers hold regular conferences with members of the Education staff together with the critic teachers attached to the school where the practice teaching is carried on. Ninety clock hours are devoted to observation; ninety clock hours to practice teaching. The work is spread over two terms.

Six credits

EDUCATION 404. Community Recreation Programs.

The course meets a growing need for personnel trained to supervise community recreation centers. Adult programs in speech, drama, dancing, discussion clubs, language activities and citizenship classes form an integral part of activities in the community recreation centers. Students are provided with an opportunity to participate in these programs in connection with the course. Hours arranged to accommodate individual schedules.

Three credits

ENGLISH

BROTHER EDWARD PATRICK, F.S.C., M.A., *Chairman*

ENGLISH 010. Remedial Grammar.

This is a non-credit course in drill of the grammar, usage, and mechanics of English. The course is required of students whose scores in achievement tests in grammar and usage do not meet the requisite grade of performance and of other students whose classroom performance indicates the need of a review of essentials. Two hours per week; two terms.

No credit

ENGLISH 101. Composition.

The course consists in a development of expository writing, beginning with the paragraph and leading to longer papers and the term paper. One or two narrative papers are essayed. Stress is given to the student's criticism of his own writing and to the study of mechanics as the student's needs demand. Readings for intellectual stimulation are assigned. Conferences with instructor are scheduled. Three hours of lecture per week; one term.

Three credits

ENGLISH 102. Composition.

Original exercises are assigned in formal expository writing, the informal essay, and description. One or two projects in fiction and a research paper are included. Readings for stimulation and ideas are required. Individual conferences are added to class discussions. Three hours of lecture per week; one term.

Three credits

ENGLISH 103. Public Speaking.

Oral composition and basic principles of speech; developing poise, confidence, directness, and conversational spirit; stress on bodily motion, voice, and interpretation. One hour of lecture per week; one term.

One credit

ENGLISH 205. Approach to Literature.

A course in training for literary appreciation through a study of the predominant types of literature. Frequent papers, class discussions, and collateral readings are assigned. Three hours of lecture per week; one term.

Three credits

ENGLISH 206. Approach to Literature.

This course is a continuation of English 205. Three hours of lecture per week; one term.

Three credits

ENGLISH 307. Chaucer and His World.

A study is made of the writings of Chaucer, the range and variety of his art, and the influences to which he was subject; his effect on the literature of England; his poetry and language. Three hours of lecture per week; one term. **Three credits**

ENGLISH 308. Shakespeare.

A study of Shakespeare, poet, dramatist; his sources and critical appraisals of the man. Three hours of lecture per week; one term. **Three credits**

ENGLISH 309. The Literature of England: Beowulf to Blake.

Survey course in English literature showing development in types and forms. Three hours of lecture per week; one term. **Three credits**

ENGLISH 310. The Literature of England: Since 1800.

This course continues English 309. Three hours of lecture per week; one term. **Three credits**

ENGLISH 312. The English Novel.

Survey of the growth of the novel in England from its origins to the present century. Three hours of lecture per week; one term. **Three credits**

ENGLISH 313. Reading List in English Literature.

Intensive study of major authors from Anglo-Saxon times to the seventeenth century with critical attention to the values being perpetuated. **This course is required for students majoring in English.** One term. **Three credits**

ENGLISH 314. Reading List in English Literature.

A study of the leading literary figures and movements in the seventeenth and eighteenth centuries. **This course is required for students majoring in English.** One term. **Three credits**

ENGLISH 318. History of the English Language.

The origins and growth of the English language from the earliest times to the present are examined. Three hours of lecture per week; one term. **Three credits**

ENGLISH 319. Advanced Public Speaking.

The composition and arrangement of materials, outlines for argumentation and persuasion; principles of debating and parliamentary procedure. Three hours of lecture per week; one term. **Three credits**

ENGLISH 322. The American Novel.

A survey of the historical development of the novel in America from its beginnings to the present time is made. Three hours of lecture per week; one term. **Three credits**

ENGLISH 340. Creative Writing.

This is a course in imaginative writing of verse and fiction intended for students desirous of learning to write creatively. Three hours of lecture; one term. **Three credits**

ENGLISH 351. Writing the Short Story.

The course provides opportunities for those interested in short story writing; it develops critical appreciation of story writing. Prerequisite: English 340. Three hours of lecture per week; one term. **Three credits**

ENGLISH 352. Writing the Short Story.

This course is a continuation of English 351. Three hours of lecture per week; one term. **Three credits**

ENGLISH 355. Advanced Grammar.

This is a study of principles. Students who wish to develop greater skill in expression and to broaden their understanding of the operations of grammar are given a thorough and workable knowledge of grammar. Three hours of lecture per week; one term. **Three credits**

ENGLISH 401. Advanced Expository Writing.

The writing of complete papers in exposition and description; advanced level of the four forms of discourse. Three hours of lecture per week; one term. **Three credits**

ENGLISH 405. Literary Criticism.

A study of the fundamental principles of literature and style; practice in construction; reports on assigned readings; application of principles of criticism to American and English authors. Three hours of lecture per week; one term. **Three credits**

ENGLISH 408. Major American Authors.

A study of the literature of America from the colonial period to the present time, with emphasis on certain figures: Emerson, Poe, Thoreau, Irving, Hawthorne, Lowell, Melville, Whitman. Three hours of lecture per week; one term. **Three credits**

ENGLISH 413. Reading List in English Literature.

The reading list provides an intensive study of figures and movements of the nineteenth and early twentieth centuries. **Required for students who are majoring in English.** **Three credits**

ENGLISH 414. Reading List in American Literature.

Intensive reading of significant authors in American literature. **Required for students who are majoring in English.** **Three credits**

ENGLISH 415. The Drama in England.

Survey of major movements and writers from the miracle plays to Galsworthy, with discussions, readings, and reports on the dramas. Three hours of lecture per week; one term. **Three credits**

ENGLISH 416. Modern American Drama.

Trends in the American theater since O'Neill are studied. Special emphasis is given to an analysis of representative plays of the period. Three hours of lecture per week; one term. **Three credits**

ENGLISH 420. Contemporary Poetry.

Theory and practice in contemporary poetry; a study of the major figures in the light of their own theories; comparison with poets of the past and their poetic theories. Three hours of lecture per week; one term. **Three credits**

FINANCE

JAMES J. HENRY, LL.D., *Chairman*

FINANCE 201, 202. Money and Credit.

This course studies the principles of money, monetary standards and the means used by commercial banks to create credit. Particular emphasis is given to the effect on our economy of federal reserve policy and U. S. treasury fiscal policy. Three hours of lecture per week; two terms. **Six credits**

FINANCE 301, 302. Stock Markets.

A study of the functions of the stock exchange and the procedure of trading and executing orders on the floor of the exchange with their effect on prices. Current market movements are studied and analyzed with the use of current materials and special projects. Consideration is given to federal regulations and to the delivery, transfer and clearing of stocks. Two hours of lecture per week; two terms. **Four credits**

FINANCE 401. Corporation Finance.

The principles and practices necessary to establish a business enterprise are discussed. The course considers promotion, financing, types of securities, expansion, consolidation, insolvency and reorganization. Four hours of lecture per week; one term. **Four credits**

FINANCE 402. Investments.

An analysis is made of the various types of investments. Financial risk, interest-rate risk, purchasing, power risk and other risks of investment are stressed. Investment requirements are studied; as well as such policies which meet the requirements of an investment portfolio. Other standards are developed to aid in selecting the industry, the issuer, and the security. Four hours of lecture per week; one term. **Four credits**

FINANCE 403. Financial Institutions.

The purposes and functions of the various institutions in the lending and saving field and their importance in our economic system are considered. Four hours of lecture per week; one term. **Four credits**

GOVERNMENT

C. RICHARD CLEARY, PH.D., *Chairman*

GOVERNMENT 101. Science of Government.

This is a study of the nature of political authority, the state, its organs and their functions. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 103. Geopolitics.

This course is a survey of the geographic factors influencing the real and potential economic and political development of nations. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 301. American Federal Government.

This is an examination of the organization and functions of the federal government of the United States; a study of the separation of powers and relations with the states. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 302. American State and Local Government.

This is a study of state and local governments in the United States with special reference to the Commonwealth of Pennsylvania. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 401. United States Foreign Relations.

The historical development of United States diplomacy and foreign policy is traced from the period of the Revolution to 1914. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 402. United States Foreign Relations.

This course is a continuation of Government 401, from 1914 to the present. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 405. Municipal Government.

This course is a study of the organization and functions of government at the municipal level and an analysis of trends and types of municipal governments. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 407. International Relations.

An analysis is made of the basic patterns and major factors underlying international politics. Consideration is given to current international problems. Three hours of lecture per week; one term. **Three credits**

GOVERNMENT 409. American Political Parties.

This course presents a view of the political problems of the United States as revealed in the major and minor political parties that have arisen during the country's history. Three hours of lecture per week; one term.

Three credits

GOVERNMENT 410. Modern Political Thought.

This course is a consideration of major trends in political philosophy from the 18th century to the present. Three hours of lecture per week; one term.

Three credits

GOVERNMENT 415, 416. Seminar.

Students engage in individual studies and group discussion of source materials, methods of research and scholarly writing. Individual research papers are prepared on selected problems. This seminar is open to Government majors only. Three hours of lecture per week; two terms.

Six credits

GOVERNMENT 417. Constitutional History of England.

This course is identical with History 417. Three hours of lecture per week; one term.

Three credits

GOVERNMENT 418. Constitutional History of the United States.

This course is identical with History 418. Three hours of lecture per week; one term.

Three credits

HISTORY

UGO DONINI, M.A., *Chairman*

HISTORY 113, 114. The United States in World History.

The course proposes to review the political, intellectual, social, economic and religious development of the United States against the background of our western civilization. It, likewise, gives the reasons for the position of the United States in the world scene and the influence of America on world history. Three hours of lecture per week; two terms.

Six credits

HISTORY 309, 310. The Ancient World.

The course studies the Greek and Roman worlds and treats of the major oriental influences on Graeco-Roman history. Three hours of lecture per week; two terms.

Six credits

HISTORY 311, 312. The Middle Ages, 300-1500.

This is a study of the origins and development of West European Christian civilization. Three hours of lecture per week; two terms.

Six credits

HISTORY 313, 314. The History of Europe from 1500 to 1815.

The course reviews the history of Europe from the Renaissance through the era of the French Revolution and Napoleon. Emphasis is placed on the emergence of the European state system and of the middle class. Three hours of lecture per week; two terms.

Six credits

HISTORY 315, 316. The History of Europe from 1815 to 1932.

The history of Europe from Napoleon to the Great Depression is treated. Emphasis is placed on the development of nationalism and democracy and on the growth of the challenge of socialism. Three hours of lecture per week; two terms. **Six credits**

HISTORY 317. The History of England.

The course gives special emphasis to the political and social background of the cultural developments in the history of this country. Three hours of lecture per week; one term. **Three credits**

HISTORY 318. The History of Latin America.

The conquest, colonization and evolution of the nations south of the border are treated. Special attention is directed to the political, economic and social developments in Latin American nations since they gained their independence. Three hours of lecture per week; one term. **Three credits**

HISTORY 417. Constitutional History of England.

Particular emphasis is placed on the constitutional and legal developments as they evolved in the history of this nation. Three hours of lecture per week; one term. **Three credits**

HISTORY 418. Constitutional History of the United States.

The course follows the formation, evolution and application of the principles announced in the Constitution of the United States. Three hours of lecture per week; one term. **Three credits**

HISTORY 419, 420. History of the United States and Pennsylvania.

This is a more detailed study of the growth of the United States with special attention to the history of Pennsylvania from the origins of the country in the founding of the colonies to the present day. **This course is required of all history majors and of all students who are seeking teacher certification in the social sciences.** Three hours of lecture per week; two terms. **Six credits**

HISTORY 421. History of Science.

An introduction to the history of scientific thought and discoveries from the earliest times to the present. The course is given in conjunction with the different majors in science. Two hours of lecture per week; one term. **Two credits**

HISTORY 425. Modern Russia.

The course presents the development of the Russian empire, treats of the causes, course and effect of the communist revolution. Three lecture hours per week; one term. **Three credits**

HISTORY 426. The Far East in Modern Times.

The background and the modern development of the peoples of Eastern and Southeastern Asia are treated with special emphasis given to the Chinese and Japanese. Three hours of lecture per week; one term. **Three credits**

HISTORY 427, 428. The World since 1914.

Particular attention is directed to the world setting of the great wars of the twentieth century with a view of identifying causes and determining currents of historical processes. Three hours of lecture per week; two terms.

Six credits

HISTORY 431. Seminar in History.

The seminar provides an opportunity for the major in history to expand his grasp of historical method through assigned readings, research projects and term papers. These constitute the basis of group discussion. Three hours of meeting and discussion per week; two terms.

Six credits

HISTORY 432. Historiography.

The course studies the great figures in the field of history with particular attention being paid to the philosophical implications of their works. Three hours of lecture per week; one term.

Three credits

HISTORY 441, 442. Studies in Western Institutional History.

A selective study of the major institutions which have characterized the Western World. Three hours of lecture per week; two terms.

Six credits

INDUSTRY

BERNARD B. GOLDNER, PH.D., *Chairman*

INDUSTRY 201. Manufacturing Industries of the United States.

The analysis of the principal manufacturing industries of the United States including their development, structure, technology and competitive pattern. Three hours of lecture per week; one term.

Three credits

INDUSTRY 202. Principles of Industrial Management.

A comprehensive study of the principles and problems of modern industrial management including physical facilities, standardization, design and inspection, budgetary control and organization. This is the key course for Industrial Management majors. Prerequisite: Industry 201. Three hours of lecture per week; one term.

Three credits

INDUSTRY 310. Purchasing.

The principles of modern, scientific purchasing and control of materials including organization, procurement procedures, sources of supply, inventory control, quality control and purchasing department policies. Term paper required. Three hours of lecture per week; one term.

Three credits

INDUSTRY 317. Labor Problems in America.

This course is identical with Economics 317. Four hours of lecture per week; one term. **Four credits**

INDUSTRY 318. Industrial Relations and Personnel Management.

The study of new methods, ideas and practices applicable to personnel management. Topics studied include job analysis, selection, promotion and transfer, attitudes and morale, health and safety. Outside readings and term paper required. Four hours of lecture per week; one term.

Four credits

INDUSTRY 404. Motion and Time Study.

The course includes principles of motion study, process charting and techniques of time study; it involves actual projects and establishment of task times and standards. Prerequisites: Industry 202 and a qualifying score on the mathematics placement test. Three hours of lecture per week; one term.

Three credits

INDUSTRY 405. Labor Legislation.

The important federal statutes affecting labor-management relations, including the Railway Labor Act of 1926 (with amendments), the Taft-Hartley Act, the Norris-LaGuardia Act, the Social Security Act, and the Fair Labor Standards Act, are studied and analyzed. Outside readings and legal research problems are required. Four hours of lecture per week; one term.

Four credits

INDUSTRY 406. Collective Bargaining.

The history, philosophy, procedures and techniques of collective bargaining in modern industry are covered. Significant case studies of effective collective bargaining are analyzed. Outside readings, research problems and student reports are an integral part of the course work. Four hours of lecture per week; one term.

Four credits

INDUSTRY 407. Production Control.

The principles involved and the problems which arise in establishing and administering a program of production planning and control are treated. The course includes a study of forecasting, routing, scheduling, dispatching, expediting and coordination. Open only to Industry seniors. Term paper required. Prerequisites: Industry 202 and 404. Three hours of lecture per week; one term.

Three credits

INDUSTRY 408. Field Work in Industry.

Class discussion and written reports based on observation of modern industrial methods as applied by companies in the Philadelphia area. A comprehensive report on each plant visited is required every week. Open only to Industrial Management seniors. Given only in Spring term. Prerequisites: All Industry courses. Three hours of lecture per week; one term.

Three credits

INSURANCE

INSURANCE 411 a, b. Insurance Principles and Practices.

An elementary course designed to familiarize the student with the fundamental facts of insurance. A survey of (1) the underlying principles, (2) practices, and (3) legal aspects of life, fire, marine, fidelity and corporate surety, employer's liability, title and credit insurance. Three hours of lecture per week; two terms. **Six credits**

MARKETING

GEORGE R. SWOYER, M.B.A., *Chairman*

MARKETING 201, 202. Principles of Marketing.

This course treats all of the activities concerned with getting goods from producer to consumer. These activities are considered from the standpoint of the types of goods, the middlemen handling the goods, and the functions performed by the middlemen in handling the goods. Markets, trade channels, the consumer and other critical areas of distribution are discussed. Three hours of lecture per week; two terms. **Six credits**

MARKETING 304. Personal Selling.

This course outlines the development, importance and practice of individual selling in the economy. Consideration is given to sales personality, the phases of a sales presentation, types of buyers and ethics in salesmanship. Three hours of lecture per week; one term. **Three credits**

MARKETING 305. Sales Administration.

The course considers the activities of a sales administrator in directing and controlling a sales force. Included are such topics as the recruiting, selecting, training, compensating, motivating and supervision of salesmen. Also treated are: establishment of sales territories, quotas and budgets. Three hours of lecture per week; one term. **Three credits**

MARKETING 401. Marketing Research.

A treatment of the use of scientific method in the solution of specific marketing problems and in the conduct of general market research studies. Topics considered include: methods of marketing research, gathering data, tabulation and analysis, interpretation of results and report presentation. Three hours of lecture per week; one term. **Three credits**

MARKETING 402. Advertising.

The course considers the role of advertising in the economy, planning the advertising campaign, physical production of the advertisement, a comparison of the various media, and the functions of an advertising agency. Three hours of lecture per week; one term. **Three credits**

MARKETING 403. Retailing.

This course deals with the establishment of a retail store. Included are: store location, buying, pricing, personnel selection, selling, sales planning and control, credit and insurance. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS

BROTHER DAMIAN JULIUS, F.S.C., PH.D., *Chairman*

MATHEMATICS 101. College Algebra.

The earlier portion of this course treats in a more advanced manner the fundamental topics in mathematics covered by students who have had at least one year of high school algebra. In this course a good portion of the time is spent on theory and the cultivation of the student's powers of concentration. Advanced topics are then presented and developed through the solution of more theoretical and practical problems. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 102. Plane Trigonometry.

By a thorough training in the meaning and use of the trigonometric function the student is given a wider knowledge of the applications of mathematics to materials he uses and sees in action. The correlation of the functions with one another as well as uses in other fields are stressed. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 103, 104. Mathematical Analysis.

Through a logical sequence the relationship of the mathematical topics of algebra, trigonometry, analytic geometry and the beginning of calculus, the student is grounded in the fundamentals of those subjects and is also taught to realize that they form a synthetic whole. These, with their applications to the natural sciences, are interwoven throughout the course. Four hours of lecture per week; two terms. **Eight credits**

MATHEMATICS 204. Analytic Geometry.

The Cartesian and polar systems are used to study and reach certain conclusions which cannot be treated by the ordinary range of algebra, plane and solid geometry or trigonometry, although these subjects are applied throughout. Prerequisites: Mathematics 101 and 102. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 206, 207. Differential and Integral Calculus.

Variations in conditions, shape, volume, motion and other attributes of bodies, their relations to other variables such as time, temperature and forces of many kinds, and the definite integral as a limit of a sum and its far-reaching range of applications are studied. Thus, this subject is closely

connected with the natural sciences and stress is laid upon its cooperation with physical and chemical objectives as well as upon the advancement of pure mathematics. Prerequisites: Mathematics 103 and 104 or Mathematics 204. Four hours of lecture per week; two terms. **Eight credits**

MATHEMATICS 308. Differential Equations.

Differential equations of different orders, degrees and kinds such as total, simultaneous and partial are considered with emphasis on applications to the physical sciences. Prerequisites: Mathematics 206 and 207. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 310. Advanced Calculus.

This course deals with partial differentiation, multiple integrals, improper integrals and infinite series. Prerequisites: Mathematics 206 and 207. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 311. Theory of Equations.

Certain topics of algebra are treated more deeply such as solutions of third and fourth degree equations, elementary symmetric functions of roots of n -th degree equations, simultaneous equations and determinants. Prerequisites: Mathematics 206 and 207. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 314. Introduction to Mathematical Physics.

Fourier series and integrals, Legendre polynomials, Bessel functions and Hermitian functions are treated and applied as solutions of partial differential equations arising from physical situations. Prerequisites: Mathematics 206 and 207. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 315. Synthetic Projective Geometry.

A comprehensive study is made of properties that remain invariant under projectivities. The subject matter considered includes perspectivities, projectivities, the principle of duality, involutions, homologies, Pascal's and Brianchon's theorems and properties of conics. Prerequisites: Mathematics 103, 104. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 412. Vector Analysis.

The differential and integral calculus of vectors is derived and applied to dynamics of a particle, systems of particles and rigid bodies. Prerequisite: Mathematics 310. Three hours of lecture per week; one term. **Three credits**

MATHEMATICS 414, 415. Physical Mechanics.

While covering some of the principal subjects usually studied in dynamics, particular attention is paid to the application of higher mathematics to the more modern concepts of forces and motions in smaller particles, systems of particles and rigid bodies. Prerequisite: Mathematics 310. Three hours of lecture per week; two terms. **Six credits**

MATHEMATICS 416. Analytic Projective Geometry.

Areal coordinates are introduced and the principle of duality is derived. Singular properties of higher plane curves are considered. Plucker's equations are derived and types of involutions are investigated. Prerequisite: Mathematics 315. Three hours of lecture per week; one term.

Three credits

MATHEMATICS 420. Seminar.

Individual papers are discussed and the student is acquainted with the literature. This course is required of all mathematics majors. One hour of lecture per week; one term.

One credit

MATHEMATICS 421. History of Mathematics.

An introduction to mathematical thought and its development is undertaken. The contributions of individual mathematicians are studied. This course must be taken concurrently with Mathematics 420. Two hours of lecture per week; one term.

Two credits

MILITARY SCIENCE AND TACTICS

LT. COLONEL RAYMOND J. RAFFAELI, *Chairman*

MILITARY SCIENCE 101 a, b. Basic Freshman Military Science I.

An introduction to Basic Military Science dealing with the following military fundamentals: Organization of the Army and R.O.T.C.; Individual Weapons and Marksmanship; American Military History; School of the Soldier and Exercise of Command. Two hours of lecture and one hour of drill per week; two terms.

Two credits

MILITARY SCIENCE 202 a, b. Basic Sophomore Military Science II.

This course is a continuation of MS I covering the following military subjects: American Military History; Map Reading; Crew-Served Weapons and Gunnery; Elementary Communications; School of the Soldier and Exercise of Command. Two hours of lecture and one hour of drill per week; two terms.

Two credits

MILITARY SCIENCE 303 a, b. Advanced Course Military Science III.

The aim of this course is to provide a basic military education and in conjunction with other college disciplines to develop individual character and attributes essential to an officer. It will deal with the following subjects: Leadership, Military Teaching Methods; Communications; Introduction to Artillery Tactics; Firing Battery; Observed Fires; Fire Direction Center; Survey; Operation of the Field Artillery Battery; School of Soldier and Exercise of Command. Four hours of lecture and one hour of drill per week; two terms.

Six credits

MILITARY SCIENCE 404, a, b. Advanced Course Military Science IV.

This course is a continuation of MS III. The following topics are designed to develop in the students an appreciation for military command and staff work: Psychological Warfare; Geographical Foundations of National Power; Gunnery; Command and Staff Employment of Artillery in the Combined Arms Team; New Developments; Advanced Field Artillery Tactics; Military Team; Anti-Aircraft Artillery Tactics and Technique; Military Administration; Military Law and Boards; School of the Soldier and Exercise of Command. Four hours of lecture and one hour of drill per week; two terms. **Six credits**

MODERN LANGUAGES

JOHN GUISCHARD, PH.D., *Chairman*

FRENCH**FRENCH 101, 102. Elementary French.**

An introductory study of the phonetics and grammar of the language including graded work in reading and composition. This course is intended for those who are beginning the study of French. Three hours of lecture per week; two terms. **Six credits**

FRENCH 111, 112. Conversational French.

This course emphasizes the oral-aural approach to the study of the language and stresses the learning processes of imitation, repetition and memory. This course is intended for those students who have had two years of high school French but who are not sufficiently prepared for the Intermediate course. Three hours of lecture per week; two terms. **Six credits**

FRENCH 202. Review Grammar and Composition.

This course stresses grammatical review, exercises in composition and selected readings. Prerequisite: French 102 or 112; or a passing grade in the placement examination. Three hours of lecture per week; one term. **Three credits**

FRENCH 204. Survey of French Civilization.

A presentation at the sophomore level of the geographical, political, sociological, religious and cultural elements which have contributed to making modern day France. Prerequisite: French 202. Three hours of lecture per week; one term. **Three credits**

FRENCH 304. Advanced Composition.

The course includes intensive oral exercises with a view towards improving the student's pronunciation and increasing his vocabulary. Students make frequent use of audio aids in this course. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 305. Advanced Grammar and Composition.

The purpose of this course is to train the student in the use of correct idiomatic French and in the practical application of grammatical principles. It includes intensive exercises in written expression and in the translation of standard English prose into French. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 308. Survey of French Literature: Part 1.

The course includes readings and discussions of selected works, or parts of works, from representative literary authors of the middle ages, the renaissance, and the seventeenth century. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 309. Survey of French Literature: Part 2.

Includes readings and discussions of selected works, or parts of works, from representative literary authors of the eighteenth and nineteenth centuries. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 320. The Classical Tragedy.

This course includes the theater of Corneille and Racine. The following plays of Corneille are read and discussed in class: *Le Cid*, *Polyeucte*, and *Cinna*. *Andromaque*, *Phèdre*, and *Britannicus* are the selected plays of Racine. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 321. The Classical Comedy.

A study of the theater of Molière. Readings and discussions center around the following works of Molière: *les Précieuses Ridicules*, *le Misanthrope*, *l'Avare*, *Tartuffe*, *le Malade Imaginaire*, and *le Bourgeois Gentilhomme*. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 330. The Short Story.

Selected short stories from the nineteenth and twentieth centuries are read and evaluated. The rise and development of the short story in France are also subjects for class discussion. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 331. Practical Phonetics.

A study of sounds through visual and oral methods including the use of the international symbols. Individual pronunciation exercises are stressed. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 402. Modern French Prose.

Students are required to read and make reports on selected prose works of outstanding literary authors of the twentieth century. Selected readings are assigned for class work. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 405. History of the French Language.

Includes the periods from the origin of the French language to the end of the eighteenth century. Reports and readings are required. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 413. Reading List: Part 1.

Contains a list of works from representative authors of high literary merit from the middle ages, the renaissance, and the seventeenth century. A full report on each work read is required and such reports are discussed in class meetings. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 414. Reading List: Part 2.

Contains a list of works from representative authors of high literary merit from the eighteenth and nineteenth centuries. A full report on each work is required and such reports are discussed in class meetings. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 420. Seminar: The Modern French Theater.

Intensive research is undertaken by a student on an assigned modern playwright and his outstanding works. A research paper is required. These papers form the material for discussions by members of the seminar group. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

FRENCH 421. Seminar: Modern French Poetry.

Intensive research is undertaken by a student on an assigned modern poet and his outstanding works. A research paper is required. These papers form the material for discussions by members of the seminar group. Prerequisite: French 204. Three hours of lecture per week; one term. **Three credits**

GERMAN

GERMAN 101, 102. Elementary German.

An introductory study of the phonetics and grammar of the language including graded work in reading and composition. This course is intended for those who are beginning the study of German. Three hours of lecture per week; two terms. **Six credits**

GERMAN 111, 112. Conversational German.

This course emphasizes the oral-aural approach to the study of the language and stresses the learning processes of imitation, repetition and memory. This course is intended for those students who have had two years of high school German but who are not sufficiently prepared for German 202. Three hours of lecture per week; two terms. **Six credits**

GERMAN 202. Review Grammar and Composition.

This course stresses grammatical review, exercises in composition and selected readings. Prerequisite: German 102 or 112; or a passing grade in the German placement examination. Three hours of lecture per week; one term. **Three credits**

GERMAN 204. Survey of German Civilization.

A presentation at the sophomore level of the geographical, political, sociological, religious, and cultural elements which have contributed to making modern day Germany. Prerequisite: German 202. Three hours of lecture per week; one term. **Three credits**

GERMAN 304. Advanced Conversation.

Oral exercises are given with a view towards improving the student's pronunciation and increasing his active vocabulary. Students make frequent use of audio aids in this course. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 305. Advanced Grammar and Composition.

The purpose of this course is to train the student in the use of correct idiomatic German and in the practical application of grammatical principles. Includes intensive exercises in written expression and in the translating of standard English prose into German. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 308. Survey of Literature. Part I.

An introductory course to acquaint the student with the literary movements and representative authors from the beginning to 1750. Outside reading of representative works. Some lectures in German. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 309. Survey of Literature. Part II.

An introductory course to acquaint the student with the literary movements from 1750 to the present day. Outside reading of representative works. Some lectures in German. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 402. Modern Authors.

Study of contemporary authors and their works. Intensive reading of the works of representative authors. Reports and discussions. Some lectures in German. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 405. History of the Language.

The study of the German Language from its beginning to the present; particularly, the development of sounds, vocabulary and the formation of standard high German. The lectures are in German. Permission of the department chairman is required. Three hours of lecture per week; one term. **Three credits**

GERMAN 413. Reading List: Part I.

Readings, reports and discussions. The reading material is selected from the various periods of German Literature. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 414. Reading List: Part II.

Readings, reports and discussions. The reading material is selected from the various periods of German Literature. Prerequisite: German 204. Three hours of lecture per week; one term. **Three credits**

GERMAN 420. Seminar.

The topics of investigation will vary from semester to semester. Readings, reports and discussions of a selected topic. Intended primarily for students majoring in German. Permission of the department chairman is required. Three hours of lecture per week; one term. **Three credits**

GERMAN 421. Seminar.

The topics of investigation will vary from semester to semester. Readings, reports and discussions of a selected topic. Intended primarily for students majoring in German. Permission of the chairman of the department is required. Three hours of lecture per week; one term. **Three credits**

ITALIAN

ITALIAN 101, 102. Elementary Italian.

An introductory study of the phonetics and grammar of the language including graded work in reading and composition. This course is intended for those who are beginning the study of Italian. Three hours of lecture per week; two terms. **Six credits**

ITALIAN 111, 112. Conversational Italian.

This course emphasizes the oral-aural approach to the study of the language and stresses the learning processes of imitation, repetition and memory. This course is intended for those students who have had two years of high school Italian but who are not sufficiently prepared for Italian 202. Three hours of lecture per week; two terms. **Six credits**

ITALIAN 202. Review Grammar and Composition.

This course stresses grammatical review, exercises in composition and selected readings. Prerequisite: Italian 102 or Italian 112; or a passing grade in the Italian placement examinations. Three hours of lecture per week; one term. **Three credits**

ITALIAN 204. Survey of Italian Civilization.

A presentation at the sophomore level of the geographical, political, sociological, religious, and cultural elements which have contributed to making modern day Italy. Prerequisite: Italian 202. Three hours of lecture per week; one term. **Three credits**

ITALIAN 304. Advanced Composition.

Including intensive oral exercises with a view towards improving the student's pronunciation and increasing his active vocabulary. Students make frequent use of audio aids in this course. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 305. Advanced Grammar and Composition.

The purpose of this course is to train the student in the use of correct idiomatic Italian and in the practical application of grammatical principles. It includes exercises in written expression and in the translating of standard English prose into Italian. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 308. Survey of Italian Literature: Part 1.

This course is designed to provide a fundamental knowledge of Italian literature from its origins to the 16th century, with particular stress on Dante, Petrarca and Boccaccio, and their contribution to Italian Humanism and Renaissance. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 309. Survey of Italian Literature: Part 2.

A comprehensive study of Italian literary currents from the "Marinismo" to D'Annunzio and Pirandello through neo-classicism, romanticism, and futurism, with comparative references to European literature. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 402. Modern Authors.

This course includes a survey of Italian narrative and poetic production in the late 19th century and in the first half of the 20th century, through Guido Piovene, Elio Vittorini, Corrado Alvaro, Bonaventural Tecchi, Gianna Manzini, Dino Buzzati, Giovanni Papini, Curzio Malaparte, Eugenio Montale, Giuseppe Ungaretti and others. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 405. History of the Language.

The course deals with the Italian language in its origins in the seventh century up to modern times. By means of a very few philologic and glotto-logic rules, the student will acquire a knowledge of the origins and transformation of Italian from vulgar Latin, in chronological progression. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 413. Reading List: Part 1.

The course gives an acquaintance with excerpts of Italian writers including the poets of the 12th and 13th centuries, such as Cino da Pistoia, Guido Guinizelli, Cielo D'Alcamo, Jacopo da Lentini, Guido Cavalcanti, Dante Alighieri, Francesco Petrarca, Angelo Poliziano, Lorenzo de Medici and others. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 414. Reading List: Part 2.

In this course, lectures will be given on Italian poems of knighthood with particular emphasis on "L'Orlando Furioso" by Ludovico Ariosto and "La Gerusalemme Liberata" by Torquato Tasso. Any reference to the antecedents to this literary genre will have ample consideration in its chronological development. Prerequisite: Italian 204. Three hours of lecture per week; one term. **Three credits**

ITALIAN 420. Seminar Part 1.

This course deals with the Italian literary production in the religious field. Special attention will be devoted to the writings of Saint Francis of Assisi, Saint Catherine of Siena, Fra Jacopone da Todi, Fra Jacopo Passavanti and Saint Bernardino of Siena. Prerequisite: Italian 308. Three hours of lecture per week; one term. **Three credits**

ITALIAN 421. Seminar: Part 2.

This seminar acquaints the student with the most famous Italian short stories from Giovanni Boccaccio to the seventeenth century through the "Novellino." Special attention will be given to those authors who contributed to the development of the language by means of their writings. Prerequisite: Italian 308. Three hours of lecture per week; one term. **Three credits**

ITALIAN 422. Dante.

A comprehensive study of Dante's "Divine Comedy," viewed in its different aspects: an exciting adventure story, an exposition of the poet's political action and feelings, a love story, a compendium of history, science and theology, and, finally, a program of political organization. Prerequisite: Italian 308. Three hours of lecture per week; one term. **Three credits**

ITALIAN 423. History of the Italian Theater.

A chronological survey of Italian theater, from the religious medieval representations in the open to modern realistic drama. Special attention is given to Alfieri's tragedies and their influence on Italian "Risorgimento." Prerequisite: Italian 308; 309. Three hours of lecture per week; one term. **Three credits**

SPANISH**SPANISH 101, 102. Elementary Spanish.**

An introductory study of the phonetics and grammar of the language including graded work in reading and composition. This course is intended for those who are beginning the study of Spanish. Three lecture hours per week; two terms. **Six credits**

SPANISH 111, 112. Conversational Spanish.

This course emphasizes the oral-aural approach to the study of the language and stresses the learning processes of imitation, repetition and

memory. This course is intended for those students who have had two years of high school Spanish but who are not sufficiently prepared for Spanish 202. Three hours of lecture per week; two terms. **Six credits**

SPANISH 202. Review Grammar and Composition.

This course stresses grammatical review, exercises in composition and selected readings. Prerequisite: Spanish 102 or Spanish 112; or a passing grade in the Spanish placement examination. Three hours of lecture per week; one term. **Three credits**

SPANISH 204. Survey of Spanish Civilization.

A presentation at the sophomore level of the geographical, political, sociological, religious, and cultural elements which have contributed to making modern day Spain and modern day Latin America. Prerequisite: Spanish 202. Three hours of lecture per week; one term. **Three credits**

SPANISH 304. Advanced Conversation.

Including intensive oral exercises with a view towards improving the student's pronunciation and increasing his active vocabulary. Students make frequent use of audio aids in this course. Prerequisite: Spanish 204. Three hours of lecture per week; one term. **Three credits**

SPANISH 305. Advanced Grammar and Composition.

The purpose of this course is to train the student in the use of correct idiomatic Spanish and in the practical application of grammatical principles. Includes intensive exercises in written expression and in translating of standard English prose into Spanish. Prerequisite: Spanish 204. Three hours of lecture per week; one term. **Three credits**

SPANISH 306. Commercial Spanish.

This course is intended to acquaint the student with commercial Spanish terminology combined with lectures, readings and translations of business letters. Introduction of new vocabulary used in the business world with emphasis on Spanish-American idiomatic expressions. Prerequisite: Spanish 204. Three hours of lecture per week; one term. **Three credits**

SPANISH 307. Spanish for Commercial Correspondence and Usage.

Lectures on the composition of Spanish commercial letters, designed to give ample practice in the use of technical and industrial vocabulary, sentence structure, and forms which are common in commercial Spanish. Prerequisite: Spanish 204. Three hours of lecture per week; one term. **Three credits**

SPANISH 308. Survey of Spanish Literature: Part 1.

An introduction of the study of Spanish Literature which combines reading and discussion of the earliest works from the middle ages to the Masters of Drama of the Golden Age. Prerequisite: Spanish 204. Three hours of lecture per week; one term. **Three credits**

SPANISH 309. Survey of Spanish Literature: Part 2.

A course in reading and discussion of the authors from the eighteenth century up to the present time including the classical and romantic periods of the nineteenth century. Three hours of lecture per week; one term.

Three credits

SPANISH 402. Spanish Novel—Modern Authors.

The study of the development and tendencies in the modern Spanish novel as indicated in the works of Pereda, Valdes, Alarcon, Galdos, Bazán and others. Prerequisite: Spanish 204. Three hours of lecture per week; one term.

Three credits

SPANISH 405. History of the Spanish Language.

The study of the formation of the language, its evolution and phonetic changes from Latin to the present modern pronunciations. Reading and discussions of the early Spanish texts and the development of the language in the early period. Prerequisite: Spanish 204. Three hours of lecture per week; one term.

Three credits

SPANISH 413. Reading List: the Spanish Novel of the XX Century.

Reading and discussions of the contemporary Spanish authors, their ideology and philosophical thoughts: Blasco Ibáñez, Pio Baroja, Felipe Trigo and others. Prerequisite: Spanish 204. Three hours of lecture per week; one term.

Three credits

SPANISH 414. Reading List: the Spanish American Novel.

Readings and discussions on the sociological and the literary aspects of the leading Spanish American authors and the development of their earliest works. Prerequisite: Spanish 204. Three hours of lecture per week; one term.

Three credits

SPANISH 420. Seminar: Drama of the Golden Age.

Readings, reports and discussions of the principal dramatists of the Golden Age; Lope de Vega, Tirso de Molina, Calderon, Alarcon and others. Prerequisite: Spanish 204. Three hours of lecture per week; one term.

Three credits

SPANISH 421. Seminar: the Novel in the Golden Age.

An extensive study based on readings, reports and discussions on the evolution of the Spanish Picaresque Novel: Lazarillo de Tormes, Guzmán de Alfarache and others. Prerequisite: Spanish 204. Three hours of lecture per week; one term.

Three credits

RUSSIAN**RUSSIAN 101, 102. Elementary Russian.**

An introductory study of the phonetics and grammar of the language including graded work in reading and composition. This course is intended for those who are beginning the study of Russian. Three hours of lecture per week; two terms.

Six credits

RUSSIAN 202. Review Grammar and Composition.

This course stresses grammatical review, exercises in composition and selected readings. Prerequisite: Russian 102 or a passing grade in the Russian placement examination. Three hours of lecture per week; one term.

Three credits

RUSSIAN 204. Survey of Russian Civilization.

A presentation at the sophomore level of the geographical, political, sociological, religious, and cultural elements which have contributed to making modern day Russia. Prerequisite: Russian 202. Three hours of lecture per week; one term.

Three credits

PHILOSOPHY

REVEREND JOHN DITTOE, O.P., S.T.D., *Chairman*

PHILOSOPHY 101, 102. Basic Philosophy.

A course in fundamentals which provides a basis for an outlook on life in conformity with the spiritual nature of man. The course prepares the non-Catholic student for the required advanced courses in Philosophy. **This course is required for all freshmen not taking Religion 110, 111.** Two hours of lecture per week; two terms.

Four credits

PHILOSOPHY 200, 201. Philosophy of Religion.

A course concerned with a philosophical analysis of religious problems. The main topics connected with religion are studied under the light of human reason. Data is offered from philosophy, physical science and psychology. Such topics are: God, His Nature, His Providence, the psychology of prayer and worship, the various acts of worship, charity and moral life, eternal life and immortality, the possibility of prophecy, miracles and revelation. **This course is required of all students not taking Religion 210, 211.** Two hours of lecture per week; two terms.

Four credits

PHILOSOPHY 202. Formal and Applied Logic.

A study of the objective though formal conditions of valid inference, and the application of logical principles to particular sciences. The course is presented to provide the basic principles, essential skills, techniques, or methodologies needed for college work, independent study and research. **This course is required for all sophomores.** Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 203. Philosophy of Human Nature.

A philosophical analysis of human nature which studies the position of man in the order of living beings and which lays particular emphasis on man's rational life. **This course is required for all sophomores.** Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 302. The Problem of Knowledge.

A study of the problem of knowledge in the light of the philosophy of Saint Thomas Aquinas. Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 305. Philosophy of Nature.

A study of the ultimate nature, origin, and end of the physical world with particular reference to man's position in the natural order. **This course is required for all Juniors.** Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 306. Social and Moral Philosophy.

An application of the principles of the Thomistic synthesis to the social and moral problems of the individual and social orders. **This course is required for all Juniors.** Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 311, 312. Reading List.

Works of major philosophers are read and discussed by the students with the purpose of understanding the formulation of the various positions taken by Thomistic and non-Thomistic thinkers. This course is restricted to philosophy majors and those specifically approved by the chairman of the philosophy department. Three hours of lecture per week; two terms.

Six credits

PHILOSOPHY 404. Readings in Saint Thomas Aquinas.

A detailed study of important passages in Saint Thomas in the light of present day philosophical thought. Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 411. Metaphysical Problems.

A presentation of the fundamental metaphysical values underlying the more important aspects of philosophical thought in the fields of Epistemology and Ontology. **This course is required for all Seniors.** Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 412. Natural Theology.

This course presents a philosophical approach to the problems of the existence, nature, and attributes of God; the relation of God to the universe; and, in particular, the relation of God to man. **This course is required for all Seniors.** Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 413. History of Ancient and Medieval Philosophy.

An analysis of reasoned human thought from its earliest beginnings through the Middle Ages. This course is designed to relate each development of philosophical thought to the various factors under which it came into existence, to analyze its fundamental theories and to examine its effects on subsequent thought. Three hours of lecture per week; one term.

Three credits

PHILOSOPHY 414. History of Modern and Contemporary Philosophy.

An analysis of the systems of thought coming into existence from after the decline of Scholasticism up through the present day. The method of this course is basically the same as that of Philosophy 413. Three hours of lecture per week; one term. **Three credits**

PHILOSOPHY 420-421. Seminar.

The basis of this course will be papers prepared by the individual students. These papers must be directed toward an understanding of the integral and integrating nature of philosophy and they will be discussed from that point of view. This course is restricted to philosophy majors and those specifically approved by the chairman of the philosophy department. Three hours of lecture per week; two terms. **Six credits**

PHYSICS

BROTHER G. JOSEPH, F.S.C., M.A., *Chairman*

PHYSICS 201, 202. General Physics.

This is a general course in the fundamentals of physics. It includes lectures, recitations, problem work, laboratory in mechanics, heat, sound, light, magnetism and electricity. Prerequisite: Mathematics 101, 102 or 103. Three hours of lecture, two hours of laboratory per week; two terms. **Eight credits**

PHYSICS 211, 212. General Physics.

This course covers the same content as Physics 201, 202; however, emphasis is placed on the mathematical approach to this content. This course is required for Chemistry, Mathematics and Physics majors. Prerequisites: Mathematics 103, 104. Three hours of lecture, two hours of laboratory per week; two terms. **Eight credits**

PHYSICS 304. Geometrical and Physical Optics.

The principles and methods of geometrical optics are presented. The wave theory of the refraction, dispersion, interference, diffraction, and polarization of light is considered. Experiments are carried on with lenses, mirrors, microscopes, spectrometer, spectrograph and interferometer. Prerequisites: Physics 201, 202; Mathematics 207. Two hours of lecture, two hours of laboratory per week; one term. **Three credits**

PHYSICS 306. Electricity and Magnetism.

This is a theoretical and experimental study of electrical circuits. Steady and transient direct currents, steady alternating currents at low and audio frequencies are analyzed. Prerequisites: Physics 201, 202; Mathematics 206, 207. Two hours of lecture, two hours of laboratory per week; one term. **Three credits**

PHYSICS 307. Electric and Magnetic Field Theory.

This course presents a treatment of the physical and mathematical properties of electric fields, dielectrics, magnetic fields, magnetic materials, electromagnetism. Applications are made to instruments, generators, and transformers. Prerequisite: Physics 306 either previously or concurrently. Two hours of lecture per week; one term. **Two credits**

PHYSICS 407. Atomic Physics.

This is an introductory course in the theory of atomic structure, photoelectric effect, X-rays, atomic spectra, and related topics in the field of atomic physics. Prerequisites: Physics 304 and 306. Two hours of lecture, two hours of laboratory per week; one term. **Three credits**

PHYSICS 408. Nuclear Physics.

This is an introductory survey course in the field of nuclear physics: natural radioactivity, transmutations, high energy generators, fundamental nuclear particles, nuclear reactions, nuclear fission, atomic energy, theory of nuclear forces, and cosmic rays. Prerequisite: Physics 407. Two hours of lecture, two hours of laboratory per week; one term. **Three credits**

PHYSICS 410. Introduction to the General Principles of Electronics.

The introductory course in electronics is designed to acquaint the students with the fundamental theory of electric conduction through gases and vacua. The characteristics of common types of electronic tubes, basic electronic circuits and applications are studied. Prerequisite: Physics 306. One hour of lecture, four hours of laboratory per week; one term. **Three credits**

PHYSICS 411. Electronic Circuits.

This course is a continuation of the principles of electronics with particular application to wave shaping circuits, triggering and recording circuits. Prerequisite: Physics 410. One hour of lecture, four hours of laboratory per week; one term. **Three credits**

PHYSICS 421. History of Science.

An introduction to scientific thought and scientific discoveries from the earliest times to the present. Individual work in the history of Physics. Two hours of lecture per week; one term. **Two credits**

PSYCHOLOGY

BROTHER D. VINCENT, F.S.C., PH.D., *Chairman*

One of the following Psychology courses is prerequisite for all other Psychology courses except Psychology 417, Psychology 207, 208, 302 or 314.

PSYCHOLOGY 207. General Psychology I.

An introduction to the nature, methods, principles and facts of the science of psychology. The nature of the human person and his behavior are studied, insofar as these are known from scientific observation; the biological foundations of personality, sensation, perception, imagination, motivation, emotion, frustration, adjustment, and mental health are covered in the first semester. Emphasis is placed on practical applications. Laboratory work and demonstrations are included. Three hours of lecture per week; one term. **Three credits**

PSYCHOLOGY 208. General Psychology II.

This course is a continuation of Psychology 207. Maturation, learning, memory, the higher thought processes, intelligence, individual capacities, the concept of personality, and psychology as it is related to work, society and the problems of everyday living, are covered in the second semester. Three hours of lecture per week; one term. **Three credits**

PSYCHOLOGY 301. Applied Psychology.

A practical application of the general principles of psychology to the various problems of personal, social and economic life; especially adapted for those not taking courses applicable to particular fields of psychology. Three hours of lecture per week; one term. **Three credits**

PSYCHOLOGY 302. General Introductory Psychology.

A one-term survey of the chief facts and principles of scientific psychology, designed especially for students concentrating in Education and for other students desiring a one-term introduction to the field. Three hours of lecture per week; one term. **Three credits**

PSYCHOLOGY 303. Educational Psychology.

This course is identical with Education 303. Three hours of lecture per week; one term. **Three credits**

PSYCHOLOGY 311. Child and Adolescent Development.

A general study of the mental, physical, emotional, social and moral development of the human personality from birth through childhood and adolescence to adulthood. The nature, characteristics, problems, and factors in the development of the child and adolescent are studied against the background of his biological development and environment, and in relation to home, school, society, and in preparation for adulthood. Three hours of lecture per week; one term. **Three credits**

PSYCHOLOGY 313. Psychometrics.

A general introduction to the techniques of statistics, including frequency distributions, measures of central tendency, variation, correlation, with

special emphasis on interpretation and application to the problems of research in psychology. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 314. Psychology of Adjustment.

A dynamic approach to the problems of an integrated personality, designed to assist the student in his individual and social adjustments. Students who have had Psychology 207, 208 or 302 should roster Psychology 324 instead of 314. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 315. Abnormal Psychology.

An introductory course surveying the principal forms of the major and minor mental disorders, with emphasis on the causes symptoms, course and treatment. An analysis of the over-all problem of mental illness and a study of certain borderline personality and behavioral patterns and other forms of psychological deviation are also covered. Prerequisite: Psychology 314, or 324. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 316. Tests and Measurements.

The selection, administration and interpretation of psychological tests are used in the measurement of aptitudes, achievement, interest and personality. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 324. Personality Dynamics and Adjustment.

Restricted to students who have had a previous introductory course in psychology, this course gives a more advanced treatment of the matter covered in Psychology 314. Motivation, learning theory, conflict, adjustment are treated more fully and more profoundly as they are related to the dynamics of normal and abnormal personality development. Much attention is paid to personality theory and the deeper dynamics with a view toward establishing a foundation for adjustment and therapy. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 415. Counseling and Guidance.

An introduction to the field of counseling and guidance. Application of the principles and techniques of psychology to the understanding of people and to the educational, vocational, and personal adjustment of the individual. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 417. Industrial and Business Psychology.

A study of the psychological principles and techniques involved in selecting, training, and supervising employees, and in the fields of advertising, salesmanship, market research, work, fatigue and efficiency. The importance of human relations, individual differences and personality traits is considered in relation to success in the business and industrial world. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 419. Experimental Psychology I.

A laboratory course designed to introduce the student to the classical psychological experiments and to train him in the methods and techniques of experimental design and research in the field of psychology. Experiments are performed on the sensory processes, perception, learning and memory. Two hours of lecture and two hours of laboratory per week; one term.

Three credits

PSYCHOLOGY 420. Experimental Psychology II.

This course is a continuation of Psychology 419. Experiments are conducted on the problems of attention, action and reaction, aptitudes, higher thought processes, emotions and in the fields of personality and social psychology. Two hours of lecture and two hours of laboratory per week; one term.

Three credits

PSYCHOLOGY 422. Social Psychology.

A study of the social adjustment of the individual and the influence of the individual on the group and the group on the individual and his behavior. Social institutions, problems, conflicts, leadership, morale and group dynamics are studied from the point of view of the psychological factors involved. Current theory and research are emphasized. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 423. Seminar I.

Discussion and analysis of the historical and philosophical background of modern psychology, with emphasis on the development of scientific psychology and the problems arising in the various areas of theory, and on the systems that have attempted to answer such problems. Present day approaches are given prominence. An attempt is made to evaluate, interpret, and apply intelligent criticism to the scientific facts and principles underlying theories of scientific psychology and to integrate them with the student's faith and philosophy. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 424. Seminar II.

A survey of the chief academic, professional and scientific problems in modern psychology. Special problems of research and topics of general and special interest will be discussed and analyzed so that the student may obtain an over-all view of the field. Readings, discussions and a review of the field of psychological literature are included. Three hours of lecture per week; one term.

Three credits

PSYCHOLOGY 425. Psychological Research.

The purpose of this course is to integrate and apply the student's knowledge of scientific psychology, scientific method, laboratory and statistical techniques, and the field of research literature in the solution of a specific problem. The student is required to complete a research project under the direction of one of the members of the Psychology staff. One term.

Three credits

RELIGIONBROTHER D. THOMAS, F.S.C., PH.D., *Chairman***RELIGION 100, 101. Survey of the Catholic Religion.**

This is a review course of the fundamental doctrines of the Church. It is required of those Catholic freshmen who show in the religion placement test that they are considerably deficient in the basic truths of the faith. Non-Catholics may elect it. Two hours of lecture per week; one term.

Two credits**RELIGION 110. The Old Testament.**

This course begins with a general introduction to the Bible including inspiration, inerrancy, canonicity, the senses and rules for interpretation of scripture. Then the religious significance of the Old Testament is explored by lectures and assigned readings on the more important historical, prophetic and sapiential books. Two hours of lecture per week; one term.

Two credits**RELIGION 111. The New Testament.**

An introduction to the New Testament canon, the credibility of the Gospels, and the religious and political milieu are followed by a study of the Gospels, the Acts, and select Epistles in lectures and assigned readings. Two hours of lecture per week; one term.

Two credits**RELIGION 120, 121. Exposition of Christian Doctrine, Part I: Dogma.**

A study of the dogmatic content of the Apostles' Creed. This course is restricted to Religious Education Majors. Two hours of lecture per week; two terms.

Four credits**RELIGION 210, 211. The Catholic Church and the Sacramental System.**

The nature of the Church both in her inner life, as the Mystical Body of Christ, and in her external organization is examined; and a detailed study of the Sacraments is made. Two hours of lecture per week; two terms.

Four credits**RELIGION 220, 221. Exposition of Christian Doctrine, Part II: Moral.**

The course treats the general principles of morality, the virtues, commandments, precepts and counsels. This course is restricted to Religious Education Majors. Two hours of lecture per week; two terms.

Four credits**RELIGION 310, 311. The Dogmatic Teachings of the Catholic Church.**

A study is made of the One God, the Trinity, Creation, Providence, Man and the Fall, the Incarnation and Redemption, Mariology, grace and the supernatural virtues. Two hours of lecture per week; two terms.

Four credits

RELIGION 320, 321. Exposition of Christian Doctrine, Part III: Worship.

This course treats grace, prayer, the sacraments and the liturgy. It is restricted to Religious Education Majors. Two hours of lecture per week; two terms. **Four credits**

RELIGION 310, 311. Eschatology, Mariology, Grace, and the Supernatural Virtues.

This course is for Juniors beginning with the Fall Term of 1957. Two hours of lecture per week; two terms. **Four credits**

RELIGION 410, 411. The Dogmatic Teachings of the Catholic Church.

This course is for Seniors beginning with the Fall Term of 1958. A study of the One God, the Trinity, Creation, Angels, Providence, Man and the Fall, and the Incarnation and Redemption. Two hours of lecture per week; two terms. **Four credits**

SOCIOLOGY

BROTHER D. AUGUSTINE, F.S.C., PH.D., *Chairman*

SOCIOLOGY 101. Introductory Sociology.

A consideration of fundamental concepts in several approaches to the study of human relationships. Three hours of lecture per week; one term. **Three credits**

SOCIOLOGY 103. Social Problems and Agencies.

A study of current maladjustments in urban and rural human relationships and of the agencies designed to assist groups and individuals concerned. Three hours of lecture per week; one term. **Three credits**

SOCIOLOGY 304. Marriage and the Family.

A study of the factors which make for successful family life. Offered each semester. Three hours of lecture per week; one term. **Three credits**

SOCIOLOGY 305. Social Institutions.

A consideration of the continuing organizations whereby control in groups is exercised. The family, the state, the parish, private property, occupations, education and recreation are studied with regard to expected behavior and member roles. Three hours of lecture per week; one term. **Three credits**

SOCIOLOGY 313. Social Statistics.

A general introduction to the mathematical techniques of statistics, with special emphasis on interpretation and application to sociology. Three hours of lecture per week; one term. **Three credits**

SOCIOLOGY 407, 409. Community Research Methods.

A study of methods of social research. Assistance is given students in class and in conferences toward the planning and carrying out of individual projects.
